# SPORT & SPORTING ACHIEVERS

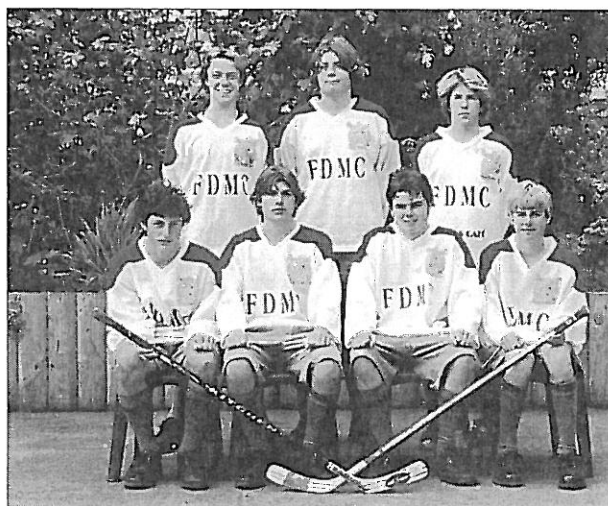

## INLINE HOCKEY

In Line Hockey is a growing sport at the College with sixty students playing in seven teams. This year we fielded 5 teams at the Secondary League and 2 teams in the Intermediate league. The Season runs through Term 1 and Term 4. The games are played at the Rink at East End.

### SECONDARY DIVISION A TEAM

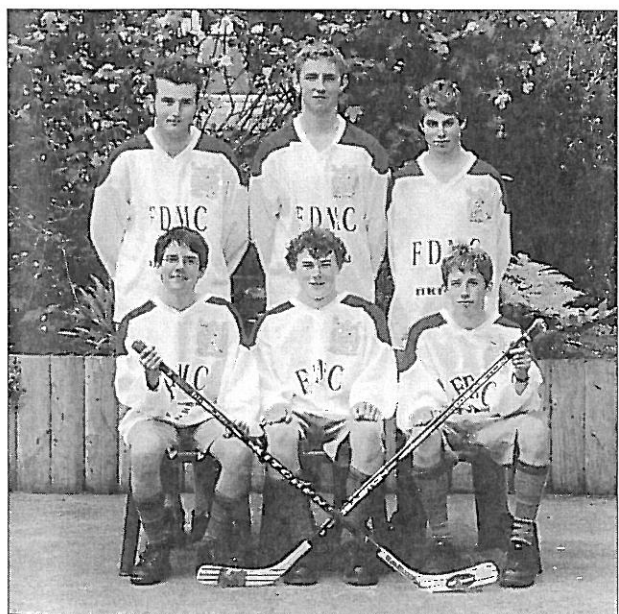

The A Team ( *Team Sam*) performed very well throughout the season though lost in the Final to Spotswood College who out played us on the day. The Team had a lot of fun and worked very well together finishing 2<sup>nd</sup> overall. Sam Beardman must be acknowledged as our outstanding player and a person who has contributed much to In Line Hockey at the College.

#### INLINE HOCKEY SENIOR A

Back Row	P.Donaldson, Z.Beardman, P.Collins.
Front Row	B.Mathys, M.Smith, S.Beardman(Capt), C.Smith.
Absent	J.Barrett

### INLINE HOCKEY THE RUSH

The Rush played well throughout the season. All Team members worked hard and played as a team. The team's skills developed throughout the season and we feel will continue to improve in the upcoming season.

#### INLINE HOCKEY RUSH

Back Row	Z.Anderson, D.Parker, O.Clarke.
Front Row	J.Robertson, B.Hodson, M.Galvin.
Absent	S.Buchanan, M.Shepherd.

## INLINE HOCKEY THE BLACKS

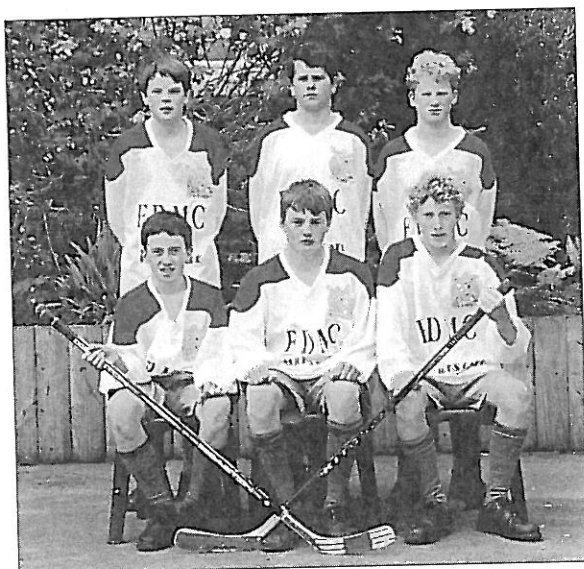

The Blacks were joined by two Okato College players who had no team to play for. We welcomed them into our team and greatly valued their skills. We performed very well throughout the season winning many of our games. Our special thanks go to Mrs. Bridgeman who gave her time to being our coach.

### INLINE HOCKEY THE BLACKS

Back Row	J.Hill, T.Gould, B.Thompson-Baker.
Front Row	J.Skinner, D.Freeman, K.Barclay.
Absent	M.Bridgeman, K.Kopu.

## INLINE HOCKEY REDNECKS

Our team played very well over the last season. We enjoyed some wins and losses and showed commitment to our team. We played our hardest showing Team spirit and good sportsmanship. We greatly enjoyed the opportunity to play in the School League.

### INLINE HOCKEY REDNECKS

Back Row	C.Cameron, S.Pearce, H.McCullough.
Front Row	M.Armstrong, M.Anderson, D.Coombes.
Absent	W.Wano.

## INLINE HOCKEY DIABLOS

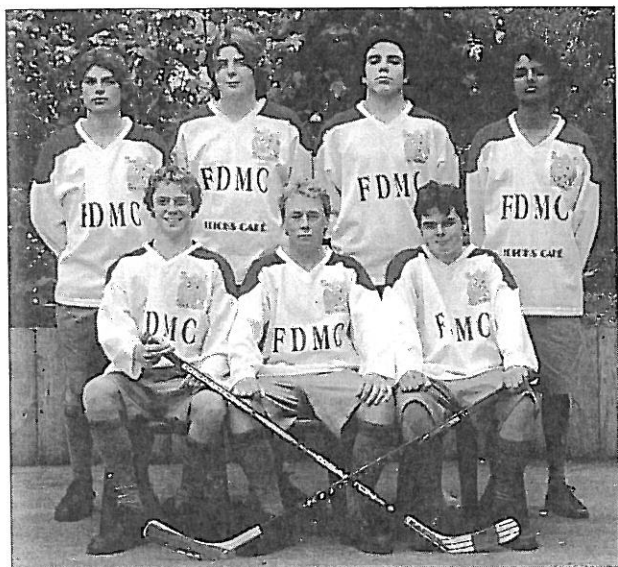

Our team, the Diablos, endeavoured to do our best throughout the whole season even though we did not manage to win many games. We worked well together as a team supporting each other and playing to the best of our ability. Our thanks go to Mr. Gordon who was our Team Manager.

### INLINE HOCKEY DIABLOS

Back Row	C.Gordon, J.Naus.
Front Row	J.Gilliand, H.Gordon, M.Murcott.
Absent	J.Instone.

## INLINE HOCKEY MULLETS MADMAN

This team is composed of some senior students who wish to try In Line Hockey and some of our experienced players who have combined to form a social team.

We wish them well and hope they have lots of fun!

### INLINE HOCKEY MULLETS MADMAN

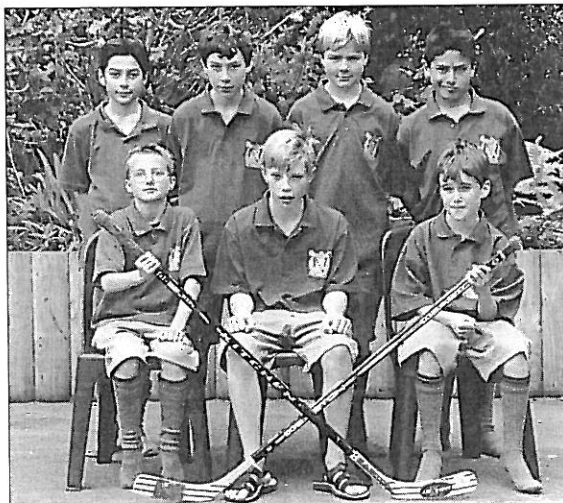

Back Row	M.Smith, Z.Beardman, C.Walsh, Y.Ekanayake.
Front Row	P.Donaldson, T.Dunlop, S.Beardman.

## INLINE HOCKEY INTERMEDIATE DIVISION FIREBIRDS

The FDMC Firebirds had an excellent season making it through to the Intermediate Finals. Sadly, we were beaten in the finals by Omata in a very hard fought game. Our thanks go to Mr. Henderson who coached us through the Season

### INLINE HOCKEY FIREBIRDS

Back Row	M.Williams, S.Squire, D.Heal, H.Tui.
Front Row	B.Schaare, N.Henderson, T.Gray.
Absent	A.Barczakl, C.Mathys.

## INLINE HOCKEY TWO DOZENS

Last season we did not do very well in terms of winning games but we really enjoyed playing. Hopefully we will do better in this next season of play. Our main goal scorer was Joseph Peebles who managed some outstanding goals. We would like to thank Mrs. Kim Leathem and Mr Craig Morgan for giving their time to manage our team.

### INLINE HOCKEY TWO DOZENS

Back Row	Z.Beardman(Coach), S.O'Hanlon, A.Leathem, A.Morgan, P.Donaldson(Coach).
Front Row	S.Gunatunga, C.Murray, R.French.
Absent	J.Peebles.

## FIRST ELEVEN SOCCER

The 2002 season was for some of the players a busier year than last. It started in January when New Zealand soccer selected a squad of 20 players to attend the Oceania Under 16 Tournament held in Sydney Australia. Paul Cunningham was selected for the squad and played 4 full games out of the 7. These being: NZ v Fiji, NZ v American Samoa and NZ v Australia in the series final. The first 3 games NZ won comfortably. However in the final they lost to a polished Australia 4-1.

In February NZ Soccer introduced an Under 20 Federation League which ran for 7 weeks and was played at various venues all over NZ. Both Tom Peacock and Paul Cunningham were selected for Federation 4 (Central North Island)

Most of the First XI were involved in Senior football and played for the school youth team throughout the winter season.

The Federation for 15th and 16th grade trials started in June and Francis Douglas boys Ben Jagersma (U15), Jeremy Hill, Thomas Peacock and Paul Cunningham (U16) were all successful in gaining selection to the final squads.

After an intensive pre-tournament build up playing mini tournaments in Palmerston North, Taupo, Napier and Masterton the Federation 4, captained by Paul Cunningham won the National Identification Tournament in Napier beating NZ 15 Grade Academy 2-1, Wellington Fed 6-0, Auckland Fed 2, 4-0, Otago Fed 7, 5-1 and NZ Academy in the final 2-1.

U19 Wellington and Napier Tournaments held in September and October each year are New Zealand's most prestigious. Taranaki does not compete in these tournaments unfortunately. However Manawatu A.F.C invited Nathan Hill, Paul Cunningham and Ainen Kereopa as guest players for both tournaments in Wellington. Manawatu reached the finals after 7 games but were beaten by Miramar Rangers 2-1. At the Napier Tournament played over Labour Weekend, Manawatu were eventually beaten by 3 Kings Auckland in the semi-finals with 3 Kings winning the final against Central of Auckland.

So what about school football?  
The FDC 1st XI programme for 2002 was geared to prepare for qualifying to attend the NZSS Jim Wishard Tournament held in Nelson in August.

FDMC played St Augustines Wanganui and won 3-0. FDMC won at St Johns, Hastings 4-1.

Then we played a friendly with NPBHS going down 4-1 (albeit with a depleted team)

We then had to play and win against Freyberg College, Palmerston North. We won 4-1, Wanganui High School was next, going down 2-4. However by this time FDMC had done enough to qualify for the Jim Wishard Tournament in Nelson.

The problem was how do we raise the money for the travel, accommodation, food etc. This was finally achieved with the positive input of parents, players and sponsors putting in long hours of work including various methods of fund raising. We eventually flew from New Plymouth to Nelson and stayed at the Tahuna Beach Holiday Park. When we arrived we found that the lads didn't know how to peel spuds, carrots etc but by the time we left they had become Master Chefs.

The Jim Wishard is a tough tournament and due to some early injuries to key players, younger lads like Ben Jagersma and Ciaran Forsythe were forced into the firing line and did a fantastic job with mostly 2 games a day. The squad was able to produce some good results but could only manage a 16th place out of 24 which was acceptable given the quality of the 24 school teams participating. It was decided that the MVP for the tournament was Ben Jagersma, top goalscorers jointly were Paul Cunningham and Jeremy Clark.

I would like to make a special mention regarding Mrs Jan Forsythe (Nurse Jan) who worked non stop in keeping the boys mobile after injuries and general knocks, bruising and pulled muscles and for her work in the kitchen and on the field with the ice and medical kit. Thanks Jan.

Also thanks to Mike Crow for his support both on and off the field throughout the season and especially at tournaments and to ALL the parents who contributed in many ways towards making the tournament a success.

And lastly all the squad members were great ambassadors for FDMC, both on and off the field. To the lads who are leaving the college and the team Robbie, Miles, Bas and Pim, all

the very best for the future. To the rest, see you next year.

Regards Paul Cunningham

## **YOUTH GRADE SOCCER**

The Youth team of 2002 can look back on a year that they can say they were unbeaten in. All the players worked hard through the season. Practice at times was light hearted but on the field the players played uncompromising football. The players supported each other and gave each other encouragement through the season. One of the biggest team fans was our own goalkeeper who supported all the players with words of encouragement. To Miles, thanks from the

team for all that great support and all the best for the future. To the captain of the team who led by quiet on field play, Jeremy, well done To the three players who made federation teams, Ben Jagersma U/15, Jeremy and Nathan Hill U/16 well done To the 'Colonel' Phil Clark, manager thanks for your support during the season. Near the end of the season hopes of playing in the final were almost dashed as having 11 of the squad on 1st XI duties at the national sec-

ondary schools tournament in Nelson. Playing two of the final round matches were to prove difficult. The TJFA agreed to have the matches played at a later date after we got back. Thanks to them and the two clubs who made it possible.

There were two disappointments for the lads. Firstly being told that you were going to play a final at Pukekura park then having to settle for Merrilands Domain. Secondly that the game was

to be televised on the local TV channel, the golden goal that won the match for the team was not shown.

Finally to all the players thank you for an easy job and a willingness to accept some different ideas from a coach a lot of you didn't know. Hopefully I'll see you again next year on the football field and not swayed to the ranks of the 'Dark' side

## 15TH GRADE TORNADES

Team Coaches	Bas Bolyn Thomas Peacock
Team Manager	Mike Crow
Captain	Ryan Hall
Vice Captain	Lee Fleming
Most Valuable Player	Lee Fleming
Most Improved Player	Hagan Brown
Dedication to the Team	Joshua Naus
Dedication to training	Chris Murray
Fair Play	Isaac Trevis
Most Versatile Player	Liam Tanner

The team played some strong teams who had been together for some years.

When it came to the next grading round the team missed the cut. This didn't stop the team performing. I was extremely pleased to see the team play positive and unselfish soccer. The encouragement on and off the field was tremendous.

The team consisted of Juner Baker, Hagan Brown, Lee Fleming, Ryan Hall, Craig Jamieson, Sam Markham, Chris Murray, Shannon Mullin, Josh and Abe Naus, Ronshi Perera, Liam Tanner, Isaac Trevis, Michael Su.

This year Tornadoes team had a mixed season. The team was made up of some highly skilled and some relatively new inexperienced players.

The season started off on a positive note with the team making the cut for the 15<sup>th</sup> Grade Division 1 competition. The boys were very positive at training sharing each others skills, encouraging one another and training hard. It was rewarding to see all the hard work put in by the two coaches; (Tom and Bas) pay off in the field.

Lastly I would like to thank the boys for their efforts and fun shared by all. A special thanks to Mr Naus, Mr Hall and Mr Murray, the parents who helped out in my absence and the many parents who turned up to the games. I wish all the boys well for their future in soccer and sport.

M Crow.

| Absent    | R.Perera, C.Jamieson, Z.Zurakowski, S.Mullin.   |

### 13TH GRADE TIGERS

The team got off to a very positive start and played well enough in the grading round to qualify for the 1st Division. However, we faltered after that and were put back into the 2nd Division after the first round of competition. The team handled this division a lot better but unfortunately we squandered a couple of games that should have been ours for the taking. Had it not been for this we would have been on top at the end of the competition.

All in all though, I think that this has been a very good year for the team. I have witnessed some excellent soccer from the boys during the year and feel very positive about the future of soccer at the school. Considering that all but two of the players from this year are eligible to play 13th Grade again next year says a lot for the standard set by the boys. This means that the majority of the boys were playing against teams with players a year older than them and in fact two of our players were actually eligible to play in the 11th Grade and therefore were playing against teams with players 2 years older than themselves. Despite this, though, I am certain that the extra year's experience and maturity will see positive gains next year.

Several of the boys from this team achieved

representative honours this year. Morgan Hall, James Graham, Thomas Mosquera and Marco Politakis were all selected for either Taranaki Rep Taranaki Development teams.

I would like to thank the boys from the team for their effort and positive attitude and I hope that you have enjoyed the season enough to want to come back again next year. I would also like to thank Mr Crow for his input and the parents who have been very encouraging and supportive throughout the season. I am prepared to put my name forward to coach again next year and hope to see you all again then.

Yours in Soccer  
Gary Brieseman

 K.How-Mclean.

Absent  
 W.Epplett, Dean Judd(Coach)

This year FDMC had enough players to make up two teams. The Falcons were selected from the pool of players to make up the second team. From watching this team I am certain that some of these players could have played on a regular basis for the Tigers. Rather than breaking up the teams we decided to keep to the original selected players.

The coach, Dean Judd, transformed the boys into a positive and co-operative team. He would like to congratulate all the players on their awesome effort and commitment at training and at the games. He would also like to thank the boys for their patience and assistance which made his job of coach more enjoyable. Although the boys did not win their section they can be congratulated on their perseverance.

The team was: Ryan French, Wayne Epplett,

Danny Hall, Jason Florence, Bryce Macdonald, Ryan McKenna, Eugene Judd, Shehan Gunatunga, Ryan Fabish, Michael Dolan, Sam Ohanlon, Wicus Prinsloo

## HOCKEY SENIOR DIVISION

This year has been a good year for hockey at FDMC. With the increased interest, we were able to enter three teams, one intermediate, and two senior in the local competitions. Both senior teams competed in the Boys "B" grade. Senior teams were divided into two teams based roughly on their ages. The younger boys were placed in Team 2 while the older boys played in team 1. Some players however were swingers and often played for both teams when players were injured or unavailable.

For the first time we were able to secure a regular weekly practice time on the AstroTurf for all teams. This benefited especially the intermediate team as well as those senior players who attended practice on a regular basis.

Team 2 were given a clothing sponsorship from Taranaki health "Smokefree" promotion unit. The team promoted the Smokefree message by wearing a new set of playing shirts which bore the "smokefree" logo. Team members were privileged to attend a special dinner for all "smokefree" teams at the end of the season.

The season for the seniors went very well with both teams ending up in the semi-finals. Team 2 lost to Inglewood. Team 1 narrowly beat Waitara in a game that was decided on penalty shootouts. The final was won by Inglewood, who proved too strong on the day.

Some players who need special mention for their efforts and achievements are; Liam Collins who represented Taranaki in the U18 division, Todd Gould who represented Taranaki in the u15 division.

Other team 1 members who deserved team awards are: Josef Konlechner, whose efforts as a goalkeeper saw team 1 winning the semi-final. He is also the "most improved" player. James Neill, was the "most valuable" player and Gareth Tai is awarded the "Leadership" award for the excellent way he captained the team.

In team 2, the "leadership" award went to Simon Martin for his role as captain. The "most valuable player" was Todd Gould who had a very stabilising influence over all players. The "most improved player" was Ian Walthew who came into the season not having played hockey before. His hard work and dedication especially at practice made him a very reliable player at the back.

Special thanks go to all parents who helped with transport and to Andrew Bedford from the Tukapa hockey club, who coached and managed the intermediate team.

Mr. Athol Hockey

HOCKEY SENIOR 1

Back Row	Mr A.Hockey(Coach), J.Hawken, J.Brown, T.Daubney, L.Collins, C.Mailman, D.Ewans.
Front Row	G.Tai, C.Sarten, T.Gould, J.Konlechner, F.McDonald, J.Neill, E.Vanner.

## HOCKEY SENIOR 2

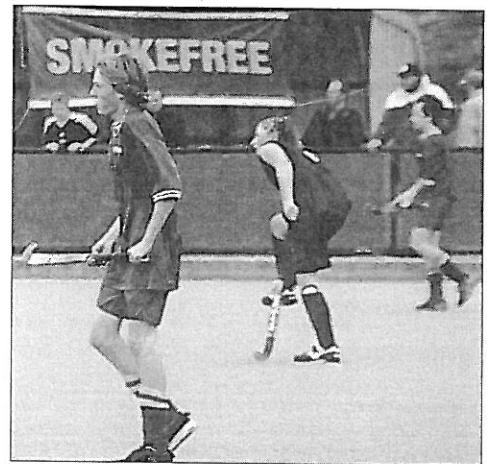

Back Row  
Mr A.Hockey(Coach), T.Gould,  
M.Murcott, J.Gilliland, A.Day.

Front Row  
P.Dravitzki, L.Fevre, S.Martin,  
J.Konlechner, I.Walthew,  
M.Armstrong, M.Barrientos.

## INTERMEDIATE HOCKEY

Back Row

C.Mitchell, M.Williams.

Front Row  
D.Sarten, J.Fastier, F.Callaghan,  
B.Haley, B.Schaare

## BEACH VOLLEYBALL

This was held on a Sunday at Ngamotu Beach in February this year.

The Teams were:

Junior fours

Shaun Butler, David Jimenez,  
Taylor Brien, Nathan Sole.

Senior fours

Hans Kalders, Martyn Henderson,  
Daniel Muller, Matthew Webling.  
Hamish Irving, Jonathon Milne,  
Ben Whittington, Philip Yarrow,  
Leon Maddern, Dylan Turner,  
Curtis Lockley, Matthew Robinson,

Senior doubles

Kane O'Keeffe, Luke Ewing.

All players performed as good sportsmen. Our Juniors finished 2nd, with David Jimenez and Shaun Butler, the stand out players. FDMC came 1st and 2nd in the senior fours with Hans,

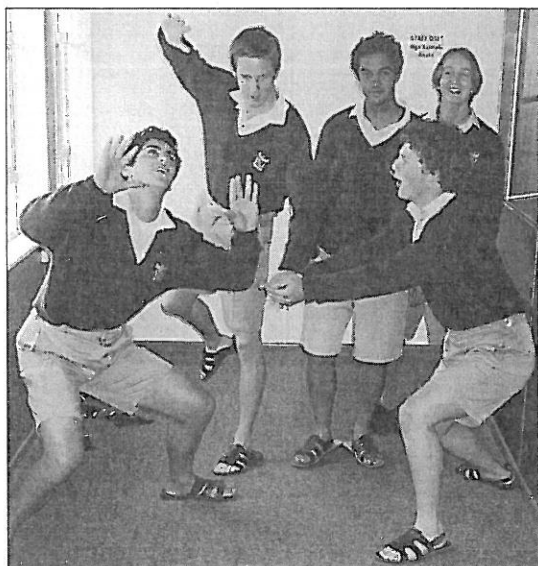

Martyn, Daniel and Matthew being 1st, while Hamish, Jonathon, Ben and Philip 2nd.

Kane and Luke Ewing were up against some very experienced pairings from Boys High and Spotswood and were put out before the quarter finals.

There were some exciting games by all the players. It was great to see their skill improve during the Tournament. Volleyball is so very much a team sport. Our boys became better and better as the day unfolded. An excellent effort, young men.

I wish them well for the future in whatever sport they pursue and also in their academic studies.

Mike Crow Co-ordinator.

## BEACH VOLLEYBALL

James McSeveny, Jonathon Milne, Hans Kalders, Ben Whittington, Kane O'Keeffe.

## BADMINTON

This year FDMC competed in the Taranaki Secondary Badminton Championships at NPGHS in the Junior and Senior Section, singles and doubles.

The teams were Seniors:

Paul Hooper, Seth Payne

Juniors:

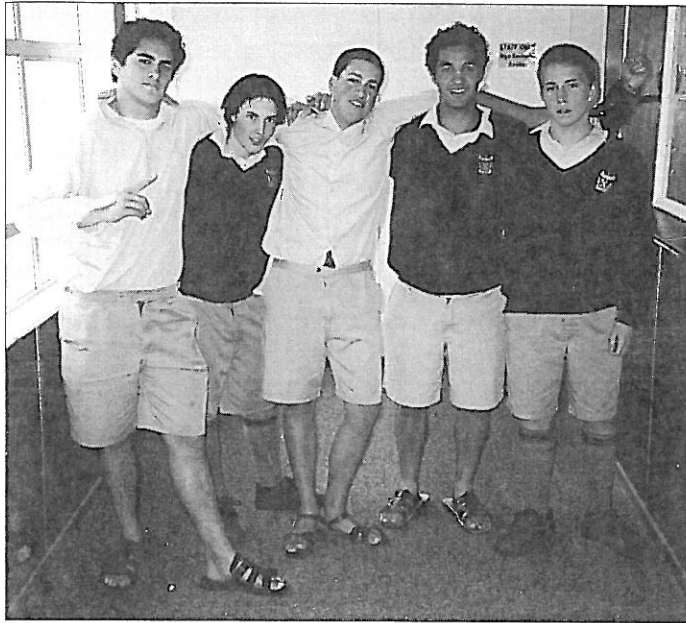

Christopher Chateris, Dylan Kemp.

In the singles Seth Payne reached the semi-final. Dylan Kemp made it to the final and finished second. A commendable effort by both players.

In the doubles the lack of practice was evident

with the Junior pairing and they were eventually knocked out in the quarter-finals. With a lot more practice next year these boys could well win this and the singles competition.

In the senior doubles the boys started shakily but managed to be consistent enough to win through to the final. In the final the boys didn't give up and managed to rattle the number one pairing from Boys' High. Yes, Paul and Seth eventually ended up Taranaki Champions. A top effort and well deserved. Throughout the tournament all the boys were fine ambassadors for FDMC

**BADMINTON**  
 J.McSeveny, C.Charteris, P.Hooper,  
 H.Kalders, C.Payne

## INDOOR ROWING

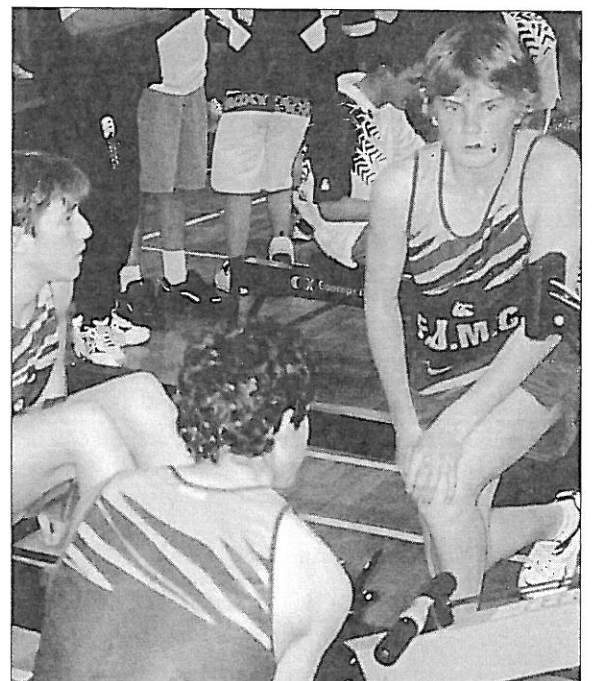

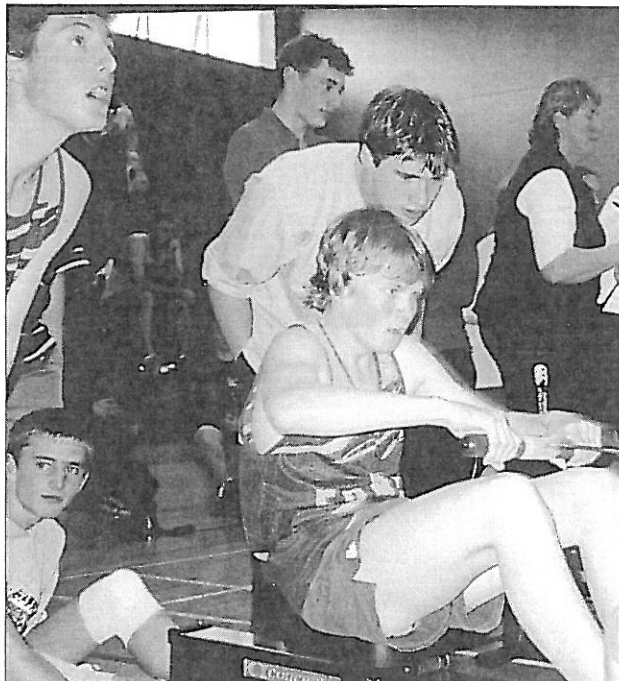

A small team of enthusiastic novices competed in the T.S.S. indoor rowing champs at NPGHS. in August. This event is always good to watch because of the machinery, the computer/video "race" graphics and the fervour induced amongst spectators and competitors.

Thanks to the relay events eight of our rowers were able to snare medals with bronze to our junior team of Michael Julian, Brett Mathys, Greg Taylor and Brendon Walsh ( 4 x 500 metres ),

and silver to the intermediates Nathan Cleaver, Tony Maindonald, Cameron Whelan and Bayden Wood.

Individual 1000m events also yielded medals to Brett Mathys (junior bronze) and Natthan Cleaver (intermediate silver).

Natthan's time for the km was 3min.15.9sec outstanding for an intermediate and bettered by only one FDMC senior since the competition has been running.

## TEN PIN BOWLING

Ten Pin Bowling is another sport that is climbing the ranks in the college. In the past five years we have built up a very strong core of players who give it their all and represent the college in true De La Salle spirit. This year was no different.

Once again there was a very strong Francis Douglas representation at this event as we entered four teams to compete. The team consisting of James McSeveny, Sam Schumacher, Daniel Jackson and Nicholas Rowland were the favoured team to bring the trophy back. Along side this team was the team of Chris Webby, Eric Smith, Brad Hunter and Sam Barrett. Also competing were the highly rated team of Arjun Nath, Matthew Bolton, Sam Beardman and Yeshan Ekanayake and then we had a junior team of Shaan Davis, James Rowland, Grant Maclean and Paul Story who are always a credit to the college.

The bowling kicked off early on Sunday morning (too early for some) and pins were rapidly knocked down. Competition came from all angles. Eighteen male teams were all fighting for the same trophy. Who wanted it the most?

The success the Francis Douglas Ten Pin Bowling team of 2002 is seemingly beyond reproach.

The team made up of Webby, Smith, Hunter and Barrett were victorious in retaining the trophy for the school. They were closely followed by the team of McSeveny, Schumacher, Jackson and Rowland who finished in second. We were also victorious in completing the top three with a clean sweep as the team of Davis, Rowland, Maclean and Story finished in third. This ensures the college is in good hands for the coming years.

James Rowland was awarded the best individual bowler award based on the most pins over the three rounds and Matthew Bolton won the award for the best individual score in one game. Congratulations to everyone who took part, a fantastic effort all round.

Many thanks must go to Mrs. Simpson. 'Coach of the year' in our eyes. She was always the first to training and the last to leave. She drilled us well and had us prepared, physically and mentally for the battle to come.

To the team next year, we wish you the best of luck. No doubt you will continue to compete with the same amount of courage and passion.

Chris Webby and Sam Barrett

## ARCHERY

### Andrew Barczak

Started shooting at 6 years old - Recurve bow  
1<sup>st</sup> tournament 8 years old winning medals since then.

2002:

Easter - competed in the Trans Tasman challenge. Won individual gold medal for Under 12 Boys Recurve.

2002:

August - New Zealand National Champs. Won gold medal Boys Under 12 Recurve.

November 2001:

Selected for New Zealand Junior Archery Team to travel to Ballarat Australia.

2002:

March - Honorary Ambassador of District. Broke New Zealand record by 18 points with a score of 500.

## TARANAKI SECONDARY SCHOOLS' SURFING/BODYBOARDING COMPETITION

To choose the right day with the appropriate waves and winds is always a dilemma for this event. This year the venue was Oakura Beach. The surf was 2 to 3 feet and the summer conditions perfect. Because of the large number of entrants (120 students) we had two arenas. It was a long day finishing at 6.00pm.

Our team was:

### SURFING

Under 14's

Connor Landrigan

Chris Watson

Cameron Iwikau.

Under 16's

Matthew Walsh

Anaru Hurunui

Ben Connolly,

Reserve Reuben Berghan.

Under 18's

Jeremy Freeman

Nigel Drought

Danny Brown.

### BODYBOARDING

Jackson Herbert, Matthew Carnachan, Cameron Nganeke

### BODYBOARDING

Under 18's

Jackson Herbert

Matthew Carnachan

Jordan Mullin

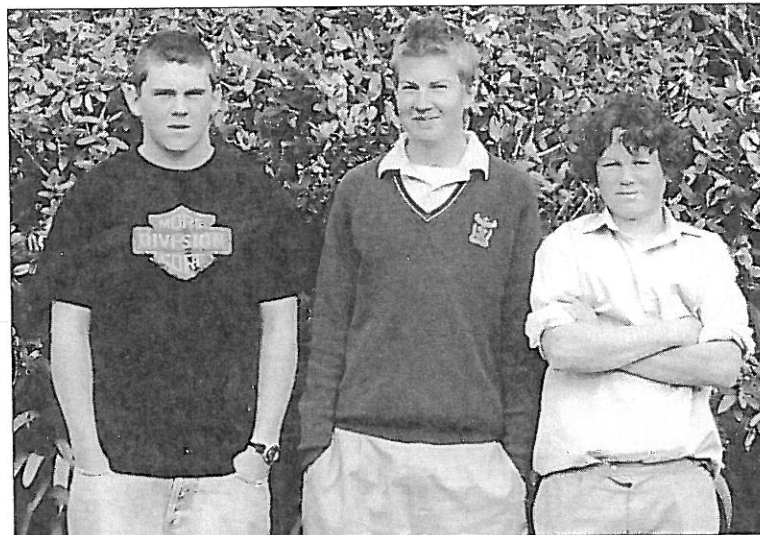

Reserve Sam Forrest.

Under 14's

Cameron Nganeke

Daniel Nganeke

Reserve Joseph Konlechner

### SURFING

Chris Watson

Ben Connolly

Cameron Iwikau

Anaru Hurunui

Matthew Walsh

Danny Brown

## TARANAKI SECONDARY SCHOOLS' SKIING AND SNOWBOARDING COMPETITION

This event was held on Mt Egmont/Taranaki on Tuesday 23<sup>rd</sup> August.

Although Jim Hickey predicted blue skies it turned out to be a windy and wet blizzard day. Despite this, the event continued throughout the day giving each racer two races. The first times of each race were combined to give an overall result and to determine the school results.

The Ski team was:

Jackson Herbert, Sam Forrest, Matthew Carnachan, Jordan Mullin, Morgan Davies, Nigel Drought, Zane Dobson, Hugh McCullough. Reserve Stuart Baker.

Jackson skied well to gain 3<sup>rd</sup> and Sam Forrest 4<sup>th</sup> in our Seniors. What made a huge difference to our school results was Morgan who won the junior division by 7 seconds, a big margin.

As the day progressed the snow got wetter and so the course had to be changed for the second run. The final ski points were added to place FDMC second equal in the skiing.

The Snowboard team was:

James Stringer, Blake Dunlop, Robert Lee, Jeremy Freeman, Sheldon Hill.  
Reserves – Toby Shanley, Charles Werder, David Smiley.

James carved it up to gain 3<sup>rd</sup> in the Seniors, followed by Blake 4<sup>th</sup>. The course was a lot straighter than the skiers to give the boards more speed.

Generally our FDMC team is a lot stronger than the other schools, but we were only placed 4<sup>th</sup> in the points.

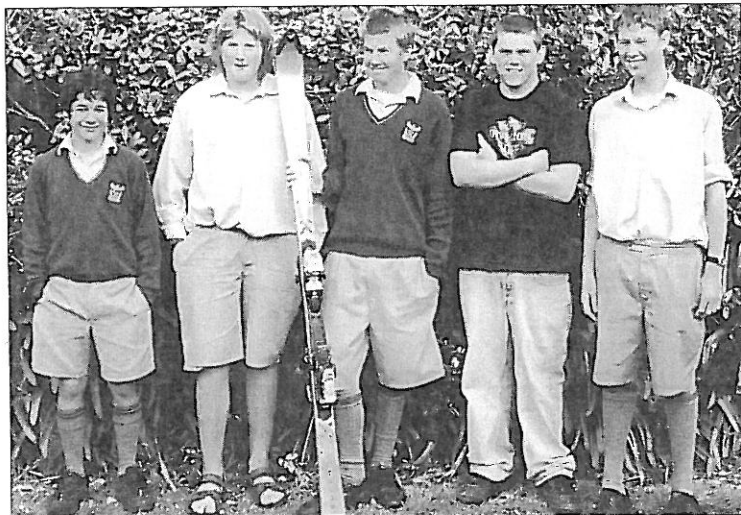

Of course the next day was perfect weather, but that's Taranaki skiing for you. It is very difficult to calendar an event that requires the right snow on the day.

John Neeson  
Co ordinator

### SNOWBOARDING

Charles Werder, Sheldon Hill, Toby Shanley, James Stringer, David Smiley

## SKIING

## NORTH ISLAND SNOWBOARDING COMPETITION

By James Stringer

This year the snowboarding competition was being held at Turoa ski field. Unfortunately the event did not happen because of Turoa's infamous bad weather, with extremely high winds, rain, sleet, snow, and mist all thrown in. So there was no competing but there were some fun times to be had.

We arrived in the mountain town of Ohakune on the 17th of September courtesy of Mr Hill and Mr Stringer. Our accommodation was great, large rooms for relaxing and minimal rooms for sleeping, which can be expected in the average members' lodge.

That night we went along to the managers' meeting to see what was going to happen, only to find out that the next day they were expecting 150km winds and poor visibility, with a very good chance that it wasn't going to clear till Saturday. As we were only there till Friday spirits were low.

The first night was spent watching the footage that the Boys High skiers had taken from their last 3 days of skiing; theirs was blue bird skies, spring snow, and no wind, plus laughing at Jeremy Freeman's punk Mohawk that I cut just before we left in the morning.

We got up in the morning to find the mountain and the competition on hold, so we geared up anyway and headed up the hill. We waited for two hours watching the jibbing jam that was going on outside the café on the various rails, and finally heard that it was called off for the

day. So we loaded up again and headed round to Whakapapa for an afternoon session, but with no rails, or jumps, hard snow and wet conditions it wasn't all that enjoyable.

Night 2 was spent playing Connect 4, and watching the Boys High footage again. On Day 2 of the competition, we waited in bed expecting the worst, and it came, by word of Mr Stringer, mountain closed, competition postponed till Friday.

Ohakune may be the Mecca for snowboarding in the North Island, but when the mountain's not open it can be as boring as listening to Dad's bag pipe music like we endured on the way over. So the rest of the day was spent exhausting the limited supply of board games, watching the footage over and over, backwards, slow-motion, backwards slow-motion, and fast forwards.

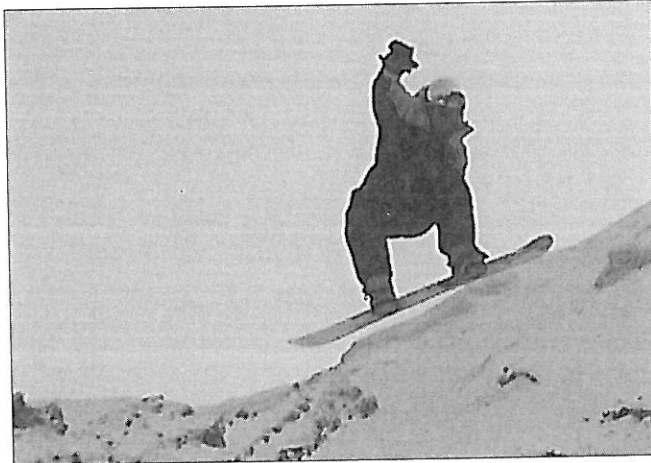

By 1pm cabin fever had well and truly set in and things were looking grim, but Ruapehu College were kind enough to let us muck round in their fully sported out gym. After 2 hours of the tramp and foam pit (Spotswood and Boys High crew showing talent), table tennis, and basketball, it was back to the lodge and a return to cabin fever. Although no competition had taken place, there were still prizes to be handed out, and they did this at the social on Thursday, the third night. Unfortunately the only prize that our crew was to receive was a talked up mountain biking video, which turned out to be less than satisfactory and was later destroyed. The social was about as good as the video, although a student from an unknown college did brighten up the evening with a classic display of "makeafoolofyourself"

syndrome, and later much to his disappointment a tennis ball in the face.

The next day was another disaster, again poor weather closed the ski field and the competition was cancelled. We didn't stick around for the spot prizes at the prize giving in the morning figuring the chance of winning was pretty slim. We gathered up our gear, cleaned our rooms, thanked the other members of the lodge for their hospitality, and said goodbye to the other schools. Snow had fallen at the Grand Château the previous night so we decided to test the Toyota Hilux

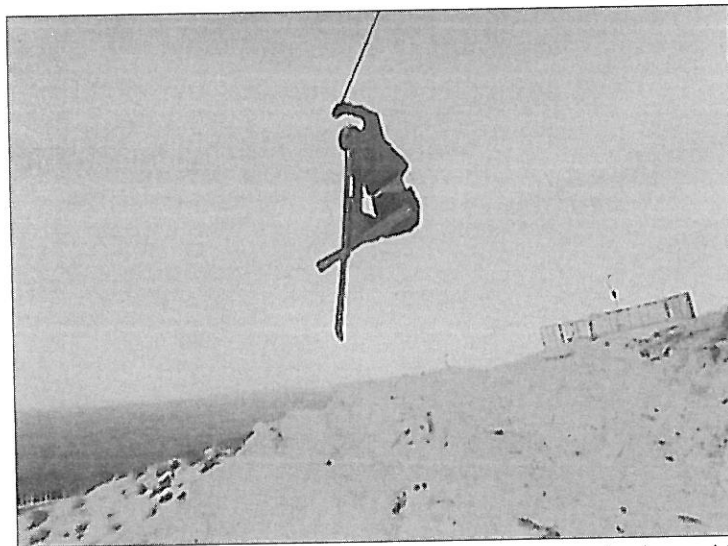

Surf and take her for a spin on the slippery conditions. Being over the Western side of the mountain the Stringer mobile decided to shoot through to Taumarunui and take the alternative route through the Waitaangas home. So home again, and although the trip was a complete failure we can reflect back and know that we learnt one valuable lesson. Don't make a fool of yourself in front of a party as you're only going to get things thrown at your face.

James Stringer

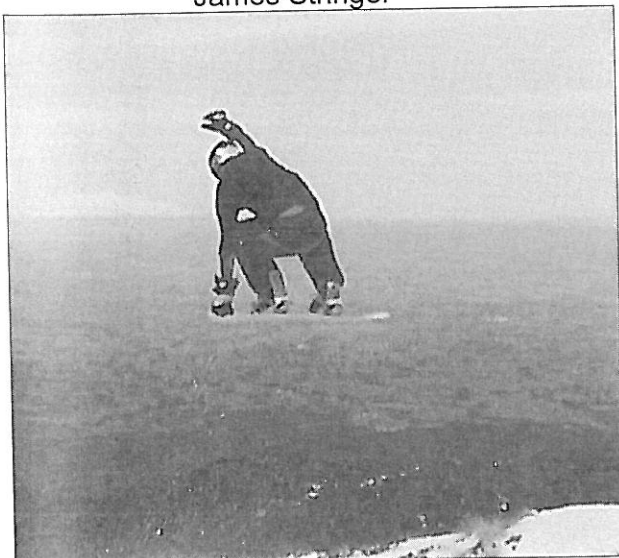

Thanks to Mr Neeson for putting the whole thing together and thanks to Mr Hill and Mr Stringer for putting up with us.

Matthew Carnachan

James Stringer

Jackson Herbert

## NORTH ISLAND SECONDARY SCHOOLS SKIING COMPETITION

This event is still one of the biggest ski competitions in the Southern Hemisphere. Eighty-four schools entered with four hundred and fifty students racing over the three days from 15-17<sup>th</sup> September (term 3).

Our team arrived in Ohakune on Saturday and stayed at Auckland Grammar Venture Lodge with some other schools. Later we moved to the Ski Life Lodge with the Taranaki Schools (Spotswood and NPBHS). We had fantastic beautiful days for the event.

Day One (Sunday) was serious Giant Slalom racing against the best in the North Island. Our boys skied fast and consistently throughout the event, although the course got icy and rutted towards the end of the day. This timed event determined our school's points and who we would race the next day in the dual slalom. Our best result was Jackson who was placed 11<sup>th</sup> out of 88 racers in the Senior division

Day two (Monday) was the dual slalom when two racers race against each other on two different courses. Matthew and Sam won theirs and Stuart, who filled in for Jordan, skied the course by himself because his partner did not turn up.

Our final result was 27<sup>th</sup> out of the 84 schools. Not a bad result considering the top placed schools have students who race train most weekends.

The team was: Jackson Herbert  
 Matthew Carnachan  
 Morgan Davies  
 Sam Forrest  
 Jordan Mullin  
 Reserves: Zane Dobson  
 Stuart Baker

Many thanks to Mrs Christine Davies and Mrs Pam Forrest for their support during the event.

John Neeson  
 Co-ordinator

 Br William Harnett

## GOLF

Earlier in the year we had 3 teams participate in the Taranaki Secondary Schools annual gold tournament at Manukorihi Golf Club. Our B team was placed best out of the 3 teams but we did not get 1<sup>st</sup>, 2<sup>nd</sup>, or 3<sup>rd</sup>.

This year FDMC had two of its students in the Taranaki junior team these two are Jamie Ashley and Aaron Hodson.

We also have the up and coming talent of Levi Rona and there are many other young Golfers coming through.

Above     Aaron Hodson,  
              Jamie Ashley  
Below     Levi Rona

## VOLLEYBALL

Our Volleyball players played in a Taranaki Open Tournament through the winter months. The teams were coached by Mr Taepa and Shane

Taepa. One team played in the A Grade sixes and came third the other team played in the C Grade sixes.

VOLLEYBALL

Back Row     S.Taepa, A.Hodson,

                  H.Te Moana,  
                  A.Kale.  
Front Row    J.Meuli, J.Rowland,  
                  P.Story(Captain),  
                  J.McCormack.

## TENNIS REPORT

In term one, Kieran Bourke, James McSeveny, Ben Gibson, Shaan Gopperth and Austrian exchange student Dieter Gotlaba represented our college for the Taranaki Secondary Schools' Senior Tennis Tournament.

The competition was held at Boys' High School against Boys High senior students in very agreeable sunny and windless conditions. The boys played well against what was obviously very strong competition. The results were that Boys' High defeated Francis Douglas in both the singles and doubles.

Malcolm Alder

On November 13, our junior teams had their chance at proving their prowess competing against Spotswood and Waitara Colleges at Waitara Tennis Grounds. Conditions were good, cloudy, dry but somewhat windy ( which of course puts everyone at a disadvantage ).

F.D.M.C. team members were:

Year 9 – Zachary Wills and Caleb Kahupukoro.

Year 10 – Kyle Crowley and Tony Radich.

All games were played as doubles and an excellent day was enjoyed by all competitors.

The results were:

F.D.M.C. Year 9 won against both Spotswood and Waitara 7 – 0 in both.

F.D.M.C. Year 10 won against Spotswood. won against Waitara 7-6 with a tie break 7-2

## SQUASH REPORT

This year our Francis Douglas Memorial College Squash team had our very first time competing at the Nationals in Palmerston North. Our team was made up of the odd graded player and plenty of future talent. We had a very good weekend learning a lot. We also won a few games. Our aim was to get out, have fun and learn.

We came 24<sup>th</sup> seed out of 35 so our heads were high because it was our first time. I would like to thank all those people who helped us prepare and fundraise the money for our trip.

Special thanks to Mrs Zieltjes and Mrs Charteris for taking us down and getting us organised for the Nationals.

Sean Richardson

C.Charteris

## SENIOR TOUCH

The 2002 senior touch team will go down in college history. They not only had the most dominant captain in history but he also had a brilliant team to back him.

This brilliant team consisted of players who were very skillful and players who got their way into the team in different ways but because this team played so well together they went to the regional championships and did the best that any touch team in college history has done. We missed out on Nationals by one placing and were very distraught about the whole situation. Because of this I feel as captain I should say a bit on each one of my great players whose last year it is at the college.

Matthew Webling saved tries and won us games. He was a huge part in this team's success. Joel Bernet was the most consistent player in the team and he was brilliant in every game. James McSeveny and Nitaan Glentworth worked their "brother" style game together well and dominated the flanks for the team and were on the

end of some great passes by the team captain. Daniel Muller and Hans Kalders were outstanding with their defence. They hunted down the attacking team and scored. Sam Schumacher was stuck on the wing but cantered in for a few great tries. Jono Milne with his beautiful passes set up try after try and dominated the flanks with his passing and vision. Jason Clout didn't partake in the regions but he played in the Taranaki competition. We missed his great skill at regions. Philip Yarrow played well around the park.

With the team dominating and becoming the greatest touch team in college history, there had to be a great leader, and with Martyn Henderson at the helm the team was destined for great things. With his dominance up the middle of the field the tries were flowing. The other team in the semi-final referred to him as "The Chief".

The team was coached by Steve Simpson and the team followed a great quote by the brilliant coach, "Do you want to win?"

### TOUCH TEAM

Back Row	N.Glentworth, J.Clout, H.Kalders, J.McSeveny, J.Milne, S.Schumacher, M.Webling, Mr S.Simpson(Coach)
Front Row	P.Yarrow, J.Bernet, M.Henderson, R.Smith, D.Muller, D.Foster.

## OUTDOOR BOWLS

The Outdoor Bowls team enjoyed great success with the College providing five of the six Taranaki representatives in a Regional trial match against Wanganui.

The students selected were Chris Webby (Singles), Sam Barrett and Daniel Graham (Pairs), Joshua Southee and Jayden Skinner (Pairs).

Taranaki defeated Wanganui 4 – 2 with a further match draw.

After the match Sam Barrett and Daniel Graham were selected to represent the region at the National Championship to be held in Nelson.

For all players concerned their achievements were excellent and extremely notable.

## INDOOR BOWLS

After the amazing heights reached in 2001, the F.D.M.C 2002 Indoor Bowls team felt the pressure after the success of last year's Team.

At the conclusion of the vigorous training, the precision was mastered, the squad was selected and bowls became an art.

Travelling to Belt Road Motor Camp along with 10 other eager teams, the sensation and anticipation were enormous.

As usual, we entered two teams. One has the experience of previous years, the other a team in training for the future.

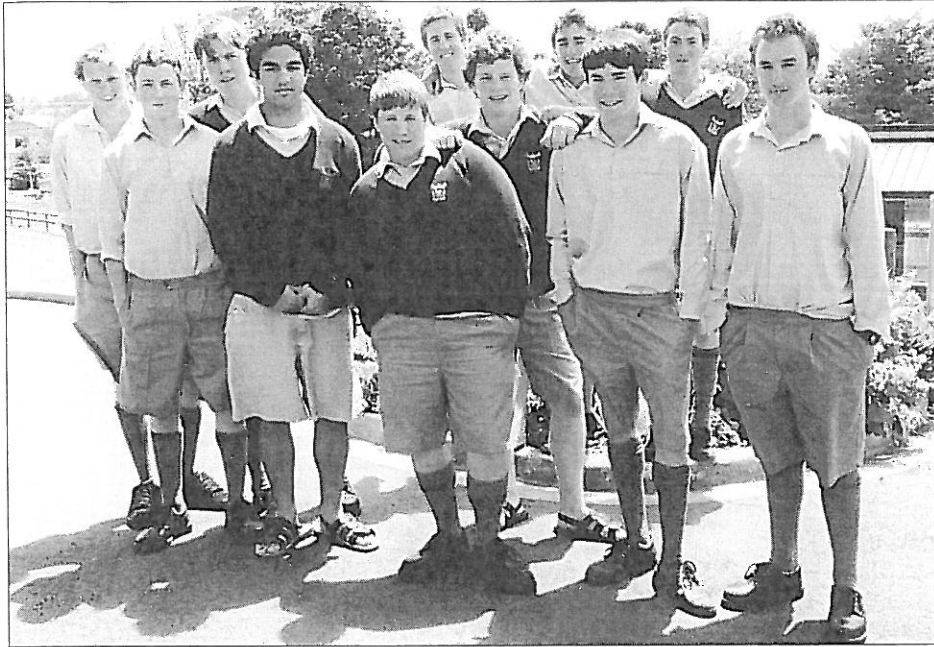

On entry, we were immediately engulfed in the aroma of bowls, chalk and competition. Our two teams were ready to play bowls.

Both of our teams performed as if there was no tomorrow, with the experienced team taking it out. Michael Cavey who plays bowls for North

Taranaki juniors came out on top with an outstanding performance to take out the singles title for 2002. In the pairs, Chris Webby and Sam Barrett achieved the unthinkable by taking out the doubles title in a play off. In the fours, Jonathon Milne, Ben Whittington, Daniel Bolstad and Hans Kalders came second. That result secured the Indoor Bowls title for another year for the Francis Douglas team. All of this success was also due to the other team, which won various games. This team included Sean Ridley (who came third), Rhys Butler, Nathan Sole, Adam Joblin, Sean Zieltjes, Mark Heath and Paul Williams.

Special thanks go out to our manager and organiser Mrs. Simpson and coaches John Campion and Sharon Long who all contributed many hours to help us understand this special art of bowls.

By Chris Webby and Sam Barrett

### TARANAKI SECONDARY SCHOOLS' MOTOCROSS CHAMPS

#### Taranaki Secondary Schools Motocross Championships 2002

These were held at Barrett Park motocross track on Sunday, 28 July 2002 in dry, windy conditions.

The FDMC team consisted of Nicholas Coomey, Craig Murphy, Daniel Dehar, Kim Cameron, Jethro

Neeson, Andrew Graham, Michael Burt and Aaron Jane

Everyone rode really well and we gained several placings. Special congratulations to our Junior team – Andrew Graham, Mike Burt and Aaron Jane – who were placed second of the six teams in the Junior section.

### YACHTING

Robert Lee competed in the Starling Youth Nationals during Easter break at Taupo. He was placed 16th in a field of 45. He was invited to attend a youth training programme run by the Royal New Zealand Yacht Club which was held at Kawau Island.

Joseph Churchman went to the North Island Championships in Auckland. He also participated in the Optimist Nationals in Wellington.

There is good young talent coming along with both William Rowland and Sam Connolly getting into the Optimist.

B.Stevenson, S.O'Hanlon.

## NEW ZEALAND SECONDARY SCHOOLS CROSS COUNTRY

On the 16<sup>th</sup> June 2002, 13 physically toned proud Francis Douglas boys headed off to compete at the New Zealand Secondary Schools' Cross Country in Blenheim.

The team was handpicked by qualified selectors in accordance with rigorous selection criteria. There was an air of excitement as the boys gathered to embark on their journey. The more experienced, senior athletes such as Joel Schrader and Jean-Pierre LeProu were thrilled by the prospect of a gruelling 6km race. However some competitors for example Chad Smith and Shaun Butler, were more excited by the 2:1, female and male ratio the joint travel and accommodation arrangement with sister school Sacred Heart would provide.

The trip started with mixed emotions for the boys when we were told that prominent team member Ryan Christensen was to be left behind. Nevertheless, the boys handled the setback well and we exerted our dominance early by claiming the backseat of the bus as "College" territory. Christensen, however, showed his true commitment to the team (and to the female travellers) by racing to meet the bus in Hawera. He immediately made up for lost time, working his magic on the unsuspecting Sacred Heart girls. The bus trip to Wellington was a rather uneventful one apart from the battle for the backseat. The female travellers, using superior charm, enticed, one-by-one, the boys out of the backseat. Then, when defences were at their weakest the girls rushed to seize the prime seat in a ruthless assault.

Once we reached the Ferry Terminal stiff travel-

ling legs needed stretching and almost immediately a game of Ferry-Terminal-Indoor-Rugby was started however this idea was quickly brought to an end by Inter-Islander workers.

During the voyage across Cook Strait the athletes undertook various activities. Some preferred to watch a movie, some played cards and some just slept.

Once we reached Picton we re-boarded the bus and travelled on to Wairau Marae.

At the Marae we all ate a decent, hearty, nutritional meal of Farmbake biscuits and Milo before we prepared for bed. Being decent College gentlemen we sacrificed our own warmth and wellbeing (and probably at least 15 places each in the races the next day) by generously giving the girls room our heater.

However we didn't head to bed straight away.

We have to thank a lot of people who helped with the trip:

Mr Cribb, for accompanying us and for supplying the traditional rugby ball and for his countless bed-time jokes which had the boys in hysterics.

Ms Forbes (SHGC) for organizing the trip and for showing us all what an angry woman is like when Blenheim Pizza Haven "forgot" to complete our order of 20 odd pizzas.

Mr Simpson, for picking us in the team.

The SHGC Year 9's for keeping Shaun Poole, Chad Smith and Shaun Butler out of our hair.

All the parents who helped make it possible.

Thomas Hills

## TARANAKI SECONDARY SCHOOLS' TRIATHLON

This year Taranaki Secondary Schools Triathlon Championships were held on March 16<sup>th</sup> at Ngamotu Beach. A strong westerly provided a testing head wind for both the 250m swim leg and the 10km bike leg that went out past Back Beach to Omata and return. This was followed by a 3km run to complete the race.

It was fantastic to see such a high number of enthusiastic participants from FDMC with 21 out of the 67 athletes being from our College. Many thanks to Thomas Dunlop for his help in organising the following teams listed in order of swimmer/cyclist/runner:

- Junior Boys: 1<sup>st</sup> place Shaan Butler  
Nathan Sole  
David Jimenz
- Senior Boys: 1<sup>st</sup> place Mark Heath  
Nathan Cleaver  
Thomas Hills
- 3<sup>rd</sup> place Kurt Sole  
James Rowland  
Scott Wildbore
- 4<sup>th</sup> place Shaan Davis  
Kane O'Keefe  
Matthew Bennett
- 5<sup>th</sup> place Daniel Bolstad  
Blair Gregg  
Ben Kyle

### Individual Junior Boys:

- Richard Stieller (2<sup>nd</sup> place)  
Brock Roberts (4<sup>th</sup> place)  
Greg Taylor (5<sup>th</sup> place)

### Senior Boys

- Thomas Dunlop (3<sup>rd</sup> place)  
Nicholas Rowland (5<sup>th</sup> place)  
Sam Schumacher (7<sup>th</sup> place)

The results were outstanding and special award for 'Never Say Die' attitude must go to Sam "Horse" Schumacher who was destined for much higher honors when he punctured on the bike leg, out past Back Beach. Not to be defeated he slung his bike over his shoulder and ran the last 4km of the bike leg, then continued with the 3km run leg to still complete the race. "Awesome Stuff"!!

### TRIATHLON

- Back Row  
K.Sole, T.Hills, M.Heath,  
N.Cleaver, D.Bolstad,  
B.Whittington.
- Front Row  
B.Roberts, G.Taylor,  
K.O'Keefe, T.Dunlop
- Absent  
N.Rowlands,  
S.Schumacher

## TARANAKI SECONDARY SCHOOLS' MOUNTAIN BIKING CHAMPS

It was a cold, wet winter's day that happened to fall on a Sunday. I dragged myself out of bed knowing that I had to compete in the Taranaki Secondary School's Mountain Bike Championship at Lake Mangamahoe. Nevertheless, I had the goal to do my best regardless of the weather conditions.

On arrival our team had to register with Steve McKeen the organiser from Sports Taranaki Trust. The course looked muddy, slippery and wet. No doubt it would be a challenge. I was keen to start!

Throughout my race I fell off a few times (thank goodness nobody saw me). My legs were sore and tired from biking in muddy puddles where it seemed as though I was getting nowhere! It did not help either with another rider passing me by. I wanted to give up but I knew I could not let my team down. As a result, I persevered and I was determined to tag my next team-mate.

Just one more time around the circuit, I was ready to be tagged by my team-mate. I was confident and ready. I took off like a bolt of lightning and just about hit a spectator. I decided I had better pace myself in case I hit a pine tree. The

circuit seemed a lot easier a second time, and I was well aware of the treacherous terrain. Although I did not fall off as much as I had previously, I sprinted to the finish line!

FDMC seniors had come first! We were very happy with our result. We were covered in mud from head to toe and we looked forward to a long hot shower.

Overall, we thoroughly enjoyed ourselves and we'll be back to compete next year. Fingers crossed that the weather would have improved, hopefully!

### Cross Country Team Event

1<sup>st</sup> Place – Griffin Hunt, Matthew Barton and Richard Hunt.

Individual Event

3<sup>rd</sup> Place – John Froude

Results – Cross Country

Seniors:

Team's Event – 1<sup>st</sup> place (Griffin Hunt, Matthew Barton, and Richard Maddern)

Individual's Event – 2<sup>nd</sup> place

Juniors:

Individual's Event – 3<sup>rd</sup> place (John Froude)

MOUNTAIN BIKING

G.Hunt, M.Barton, R.Madden, J.Froude, A.Gordon, S.Miller

## TSS ASSOCIATION CYCLING CHAMPS

This year's Taranaki Secondary Schools' Cycling Championships were held at Inglewood on Sunday 18<sup>th</sup> August.

With the escalating demands of many other united sporting codes as they approach their season's conclusion, it was pleasing to see a good number of cyclists representing seven of Taranaki's Secondary Schools. That the rain held off until about 10 minutes after the conclusion of the event was a real blessing.

In the 8km Individual Time Trial, Thomas Dunlop got second place in the senior boys' event and

kept young cyclist John Froude was third place in the Junior Boys' Event.

The boys team trial was raced over 16km and Scott Peters, Brock Roberts, Griffin Hunt and Blair Gregg were placed second. It was good to see some new faces in this team with Brock appearing to be full of promise in any of the cycling, duathlon/triathlon events. Griffin competed with a broken wrist and Scott sacrificed a certain win in the Individual race to lead the team home in this event.

Well done to everyone.

### CYCLING

G.Hunt, J.Froude, T.Dunlop, B.Roberts.  
Absent B.Gregg, S.Peters

## DUATHLON REPORT

Earlier this year Mr Cleaver organized a selection of boys to enter the Taranaki Secondary Schools Duathlon Champs. The race included two disciplines, the individual and the teams event. The course, centred around Hurworth Hall, was comprised of a 2km run followed by a 10km cycle then another 2km run.

The results were:

Scott Wildbore – 1<sup>st</sup> Senior Boys Individual  
Brock Roberts – 2<sup>nd</sup> Senior Boys Individual

Nicholas Rowland & Thomas Hills – 1<sup>st</sup> Senior Boys Teams

The End of  
Athletic Sports Day

## AUSTRALIAN SCIENCE COMPETITION

This year a record 103 students from Year 7 to Year 13 participated in the above competition. All students received a Certificate of Participation (and a chocolate bar).

As well, 35 students demonstrated excellence by attaining a level of Distinction (top 10% in NZ) or a level of Credit (next 20% of entrants in NZ).

## YEAR 10 SCIENCE

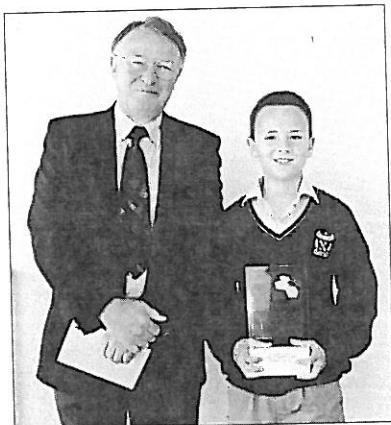

The Year 10 Science Quiz took place on Wednesday 24<sup>th</sup> July at the New Plymouth Racecourse. Eleven schools from around Taranaki participated in the competition.

Francis Douglas Memorial College had five boys go: Andrew Vernon, Matthew Bloomfield, Kevin Curtis, Nick Sidler and Reuben Costello.

The quiz had three different activities; oral, visual and written. The written was the most time consuming activity, which was divided into the sub-groups Chemistry, Living World, Earth and Beyond and Physics.

NPBHS came first with 136, Francis Douglas Memorial College came second with 129 and NPGHS came third with 123 points.

By Andrew Vernon

Dillon Ropitini 7G  
 Science Fair Best Exhibit  
 1st in Science Investigation  
 2nd in Observational Drawing  
 Dillon received the winner's trophy from Mr Clyde Wilkes.

## UNIVERSITY OF OTAGO SENIOR SCHOOLS SCIENCE QUIZ 2002

Several students in Year 11, 12 and 13 participated in this entertaining quiz, six of whom are to be congratulated for their highly creditable performance in achieving Certificate of Merit. They were:-

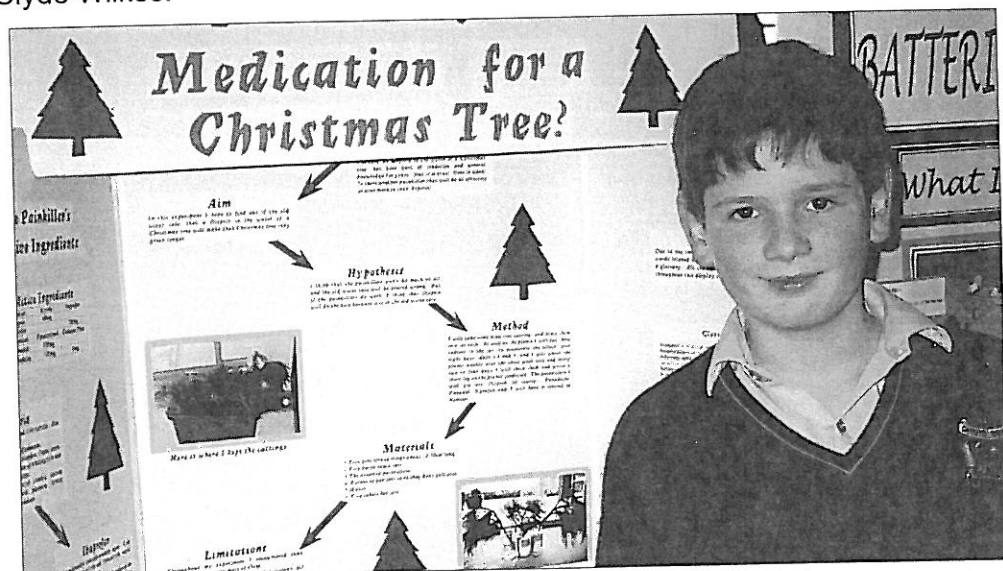

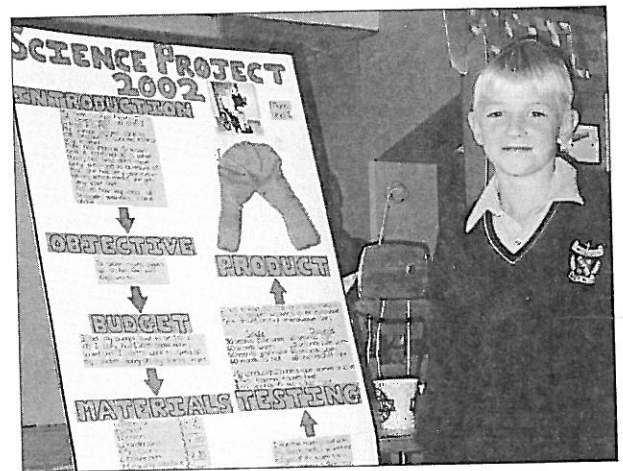

Year 11 Daniel Burkett  
 James Putt  
 James Neil

Year 13 Blaise Drinkwater  
 Matthew Bolton  
 Sam Beardman

In addition, Blaise and Matthew achieved such outstanding results as to receive monetary prizes of \$30 and \$20 respectively.

Well done to these students, and to all who participated.

Remember – Science is Everywhere!

THE DOUBLE WHAMMY SCIENCE FAIR

At our School Science Fair for years 7 and 8 Adam Leathem, (year 7) and Amrit Singh (year 8) won first equal in the essays and Robert Crowe (year 7) and Simon Velvin (year 8) won first equal in the scientific investigations.

There were about 40 other students who did well enough to go to the Taranaki Science Fair. Most of us had never been to such an event. It was very nerve racking for the Form Ones who have never gone before. Our school did very well for a small school. Our prizes were as follows:-

Mrs Severinson awarded them all an electronic pack from Dick Smith Electronics.

Dillon Ropitini

## MISSION TO MANILA

In January of this year, I had the good fortune of being asked to travel to the Philippines with a group of 7 youths to carry out a mission. We would be governed by world-wide agency 'Habitat for Humanity'.

For the whole of 2001 the seven of us "kids" were saving like mad. We had to raise \$3600 each for the travel costs and building costs. Needless to say, the year was long and slow on the financial front. However, our time had come, and we were going to make the most of our trip.

We flew the 17 hours to the Philippines and ventured out of the plane, a strange experience for someone who has never experienced 38 degrees of heat. The seven of us younger ones and 2 group leaders (my father Mike and his brother Si, referred to as "The Uncles") had finally arrived at our destination. It was a long time coming and we did not know what to expect, but we knew it was going to be tough.

Our mission was clear: work for five days on a rural building site in a place named Sariaya, three hours south from the capital Manila. We had to build as many houses as possible. Now Filipino houses and New Zealand houses differ somewhat. The smallest houses here can house a family comfortably, over there, ten or fifteen people fit into a house that is five metres square. This is what we had to build, and it was hard work. For starters, there are no machines in the Philippines. All of the concrete turning and mixing was done by hand, and all of the water had to be carried from a dirty well 200 metres away. We had to lift and shift all the concrete blocks ourselves, tie the steel by hand (I still have scars) and as there was no let up from the beating sun,

we sweated our bodies away. We persevered for our five days and left the building site far better off than when we arrived.

The friendships we made there with the builders and helpers were golden, and I will return to visit again

someday. In the five days, we built five and a half houses. Good Kiwi work showed through, because on arrival back in New Zealand, I received an e-mail from one of the building site managers, saying that following our five days of work was a group of 30 Koreans, and in the week that they worked, they made only four houses, compared to our 5, they had more time and 3 times as many people!!! I would never boast though.

So the hard work aspect of the trip was finished, and the group made a decision to move camp from Sariaya in the south, to the capital, Manila.

We had 8 days left to complete the trip. Our itinerary was this: we would visit child aid organisations and observe the work that they are doing in their communities, and offer our help.

So for the week, we were visiting some of the worlds poorest people, and handing out information booklets on health and the like. We got to see the effect that child sponsorship has on the families and communities in these regions, and believe you me, a little bit of New Zealand cash has a massive impact.

I personally loved this week. The experiences of that week could never be retold on paper. The myriads of children swamping us, visiting extended families all living together in a slum the size of a bathroom, eating the different foods, using the insane transport systems, playing street basketball with the men, walking through dusty streets full of street dogs and death, and generally experiencing the harshness of this unstable nation, it really opened my eyes to how fortunate we are here in New Zealand. It was basically an indescribable experience.

I would class the trip as the scariest thing I have ever done, but also as the most important. To experience things I never had, and may never again experience was very amazing. I recommend a trip to a third world country for anyone who reads this and gains even the slightest interest, you will not be let down. Would I go back you ask? Not in the near future, far too intimidating in the Philippines for me, but in twenty years, I would love to go back and rekindle the friendships I made.

Danny Brown

## YOUNG ENTERPRISE COMPANY: NATIVE TALENT

**Mission statement:** To excel in all areas of the business world, cherishing the experience and triumphing over the businesses in the YES competition in a respectable fashion. This is the mission statement on which we based our expedition into the business world this year.

We began by conducting an extensive market research programme before deciding on our product: Native Trees.

Our first major YES event was the Trade Fair, at which we were very successful. We were awarded 3<sup>rd</sup> best overall stall but were voted as 2<sup>nd</sup> best by the people attending the fair.

As we soldiered on we

learnt new skills and sold more trees. The 12 directors of Native Talent fast became known as the "Dirty Dozen" due to our teamwork and hard work.

The Oral Presentations were easily the highlight of the year. After hours of hard work and practice we put in a monstrous effort in an attempt to take the prize. We gave of our best, but unfortunately, came out empty handed. This was disappointing but we picked ourselves up and continued honing our business skills. Our final task was to complete a report of monumental proportions. Polished and professional it winged its way to Wellington for our final evaluation.

Although we didn't win we have learnt valuable new skills which we can use in the "real world". Overall, the experience was extremely beneficial and has taught us much about the value of hard work, commitment, integrity and teamwork.

Sam Barrett.

## AGRICULTURE/HORTICULTURE REPORT

The Year 2002 began with the news that 100% of the 2001 School Certificate Horticulture class passed with an average 16% better than the national average. Further, the Agriculture class of that year were 7% better than the national average. Congratulations to those students who put in the effort.

2002 is the first year in the history of Francis Douglas Memorial College for the College to have a UB Agriculture class. Students can now study Agriculture/Horticulture by choice successfully from year 10 – 13. The internal assessment results look promising.

Francis Douglas Memorial College again hosted the televised ACC sponsored Taranaki Agriculture Safety Challenge at the Agridome. There were 7 competing schools, tested on ATV skills, stock handling ability, firearms safety, tractor driving, handling chemicals, mechanical and

electrical tool safety and first aid, ending in a quiz on all aspects of farm safety.

Our year 10 team (R Dettling, T Annabell, S Bourke, R Stieller) competed admirably to miss second place by 0.5 of a point competing against year 12 and 13 students from other schools.

Thanks to: other year 10's (marshals) Taranaki YFC, Norwoods (New tractor and ATV), AGNZ (chemicals & stock handling), St John's Ambulance (first aid), NZ Police (firearms), Br William Harnett (faulty farm machinery), and the organizing committee.

Agriculture/Horticulture Science students developed and maintained their individual garden plot, propagating plants from seed and cuttings. The endeavours of these students has commercial potential for the school.

## OUTDOOR PURSUITS CENTRE

OPC – The adventure starts here! Chalet number four, nestled amongst native bush where bell birds chirp and kiwis roam. An indescribable environment which we would call home for the next six days.

After a night of familiarising ourselves with the instructors, fellow participants and the surround-

ings we began the adventure. From the simple task of making sandwiches for our lunch to flying the fox across the colossal ravines of heartland New Zealand, we were tested right from the word go. We also immediately noticed how there was a huge importance placed on team building and communication skills.

No time for white baiting as we manoeuvred through the raging currents of the Mangatamoa river, finally reaching the summit of our day as we enjoyed a refreshing relax on the rocks underneath a virgin waterfall.

Conquering the raging Tongariro river with nothing but ropes and tyre tubes was the 2nd days mission and our raft proved to be an engineering success. At an instant our hearts were pounding and adrenalin was rushing through our blood as we hit the thundering rapids. Steering the raft in the right direction proved difficult and a lot of time was spent going backwards. After the physical battering

and a few angry fisherman it was agreed that we needed to recuperate at the thermal hot springs. Here we had a debrief on the day and wondered what marvel tomorrow would bring.

Our fun filled double overnight 'Gurney Journey' began with a 4km kayak across the Otamangakau lake. After several hours of searching for a track that no longer existed we opted for another route and hiked for several hours to the turn off to Joe's Cave. As darkness fell we were still a fair distance from the cave and we realised we had veered off course. But team work and persistence prevailed and through the cold, dark unforgiving forest we made our way to Joe's Cave our sleep out for the night.

With compass in hand and map within easy reach our designated leaders took heed and carved the path through whatever barrier stood in their way. The rest of the team was urged to act as 'first time trampers' people saying nothing but, "Aye aye captain." Good navigational techniques resulted in a safe arrival at the limestone caves. Split into two separate teams day boys and boarders we took to finding the buried treasure within the caves. Grid references were an obstacle for some while others relished the opportunity coming to grips with the caves as if it were second nature to them. A combined effort was needed in the end to secure the desired reward.

Reaching the final destination on our hunt for clues, all numbers given to us after successfully completing each leg were mixed and matched to the grid reference for Grants Camp.

Torches lit up the path ahead and the dark could only act as a mere barrier in our quest for the camp site. 8:30pm, waist deep in water, torrential rain and torches dying by the minute, we were most definitely out of our comfort zone. Dense bush

couldn't stop our cause and at long last we got to Grants Camp. Macaroni cheese and a saturated tent was a warm welcome to our final night

in the Tongariro district.

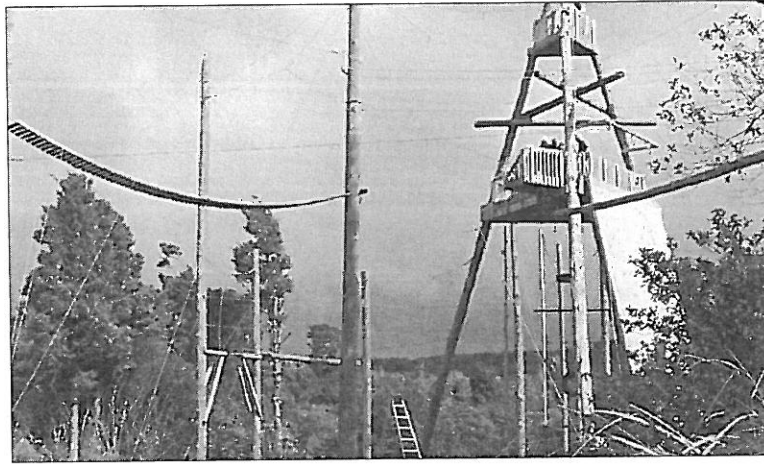

The horror weather of the day before disappeared as we awoke to cabin bread and sunshine. After beating Nicolette at packing, we were on the home stretch of our Gurney Journey. By the time we arrived back at OPC we, including our instructor, were all wet, dirty and starving! Warm showers and a vegetable soup concoction definitely did the trick.

With little time to adjust to life back at camp, we

were clambering up a near vertical pole to a platform on top. Once at the top, there was no way down from the platform but to jump and put faith in the mere ropes holding us.

After a quick tidy of our chalet and words of congratulations, we were soon leaving OPC behind.

Many thanks must go to Mr. Heath, Mrs. Le Prou and Ms. Richards for transport and to Mrs. Milne and the rest of the staff.

## READING TUTORING

A large number of year 12 students volunteered to tutor year 7 and 8 students with their reading.

It was rewarding for both year 7 and 8 students and their tutors to see the improvement in reading progress.

It is pleasing to see the year 12 students giving up their study time to tutor these students. It

was obviously a great success especially with the year 7 students as they were always waiting at the door period 1 Thursdays.

It is good to see not only the reading ability of the students develop, but also friendships.

Gaye Bolstad  
Reading Tutoring Co-ordinator

## YEAR TEN WORK EXPERIENCE/STAR TASTER COURSES

All Year ten students have had a great opportunity to undertake either work experience, organised by Mrs Wackrow, or STAR taster courses at WITT (formerly Taranaki polytechnic) this year.

### Work Experience

Students were given a chance to nominate the work places they wished to visit. For most students the work experience was very positive, while for others it confirmed what they did not want to do.

These are some of the students comments:

"What I experienced was a lot harder than I thought it would be..."

"I learnt there is a lot more to teaching than meets the eye."

"It was 'cool as' because my hours were later on in the day and I could sleep in."

"I mostly enjoyed the computers and drawing stuff."

"The thing I most enjoyed was putting parts in computers."

"I learnt how to measure water flow, read data on meters for flooding, how to clean drains, and how to manage rivers."

"It was fun and definitely one to remember....."

"good experience; going back to volunteer."

"It was fun but I never want to get a puppy! The smell of (the puppies) cages still haunts me!"

"I learnt that this will not be my job!"

Therefore it was a useful learning experience for all involved.

Francis Douglas received fantastic feedback from the employers regarding the attitude, aptitude and enthusiasm of our students which was a credit to each individual.

### Taster Courses

WITT provided many students with a great chance to taste a range of their courses and experiment a new learning environment. Taster Courses were available in Engineering, Science (Chemistry and Physics), Photography, Radio, Computing, Carpentry, Automotive, Art, Sculpture, and Sport. This was an exciting opportunity for Year ten students as is evident from the following comments.

"I really enjoyed wood work because we built bird houses."

"Quite good, hands-on and interesting teachers."

"Fun; got to play with proper equipment."

"Had some good stuff and some bad stuff."

"Worthwhile course and good atmosphere."

"Pretty good courses and pretty cruisy."

"I really enjoyed the hands-on parts and recommend it to anyone else."

"Learnt new things; some interesting, some boring...."

"I liked this experience; it was fun and a break away from school."

"Good. Skills learnt are useful."

R.O'Connor, J.Burkitt, D.Sarten, J.Maddern, L.Sisifa

# CAREER PATHWAYS PROGRAMME & STUDENT COMMENTS

## CPP 2002

It has been another great year for thirty students in the CPP Course. They have had the opportunity to experience a range of vocational activities and training courses. This year students undertook a range of training and work experience options including: Hospitality, Tourism, Multimedia, Engineering, Carpentry, Panel Beating, Agriculture, Electrotechnology, Automotive, Film, Radio, Plumbing, Horticulture, and Outdoor Adventure.

Students also had the chance to undertake distance learning in English, Maths, Sociology, Fashion Drawing, Electronics, Horticulture, Turf Management, Self Management and Boating. The Career Pathways Programme has provided the majority of students with workplace skills, as well as a greater knowledge and understanding of the wider opportunities available to them. The majority of the students have either obtained employment or have firmly decided to move into further training.

"I feel I have achieved this year and I now know where I'm heading with my career. Without CPP I wouldn't know what I'm doing."

"Throughout the year I have gained skills to help me find my career. It helped me to realise that a

job will not just fall into my arms and that I need to work for it."

"CPP was fun, way better than mainstream."

"If I didn't go to CPP I would have struggled through Year Thirteen and maybe left with nothing to do. But just that extra year has led me into a future that I look forward to. Thanks to all the CPP teachers."

"I have enjoyed CPP this year."

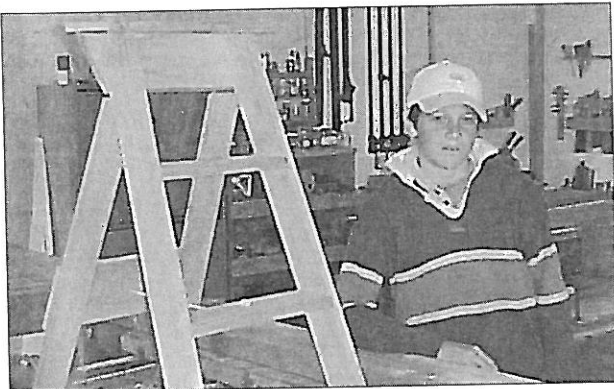

"I think this year of CPP has been great. At the start of the year I had no idea about what I would end up doing, but with CPP I now know."

"The programme has given me many skills. Through my work experience I have learnt heaps."

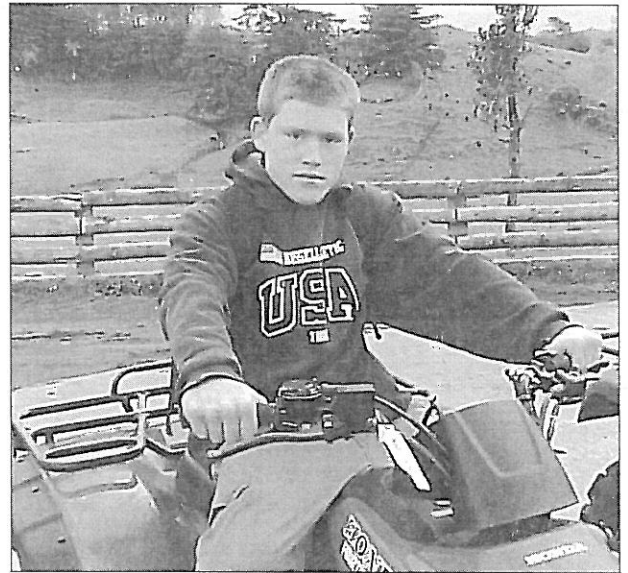

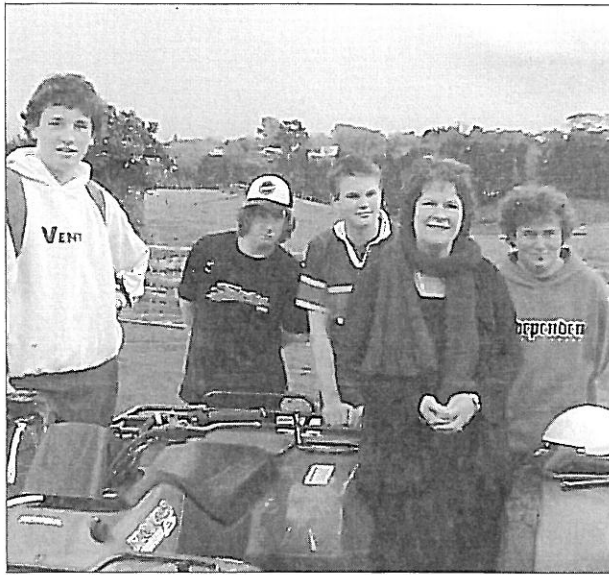

"It's up to the individual as to what they achieve out of it."

"It has prepared me for my future."

"CPP has helped me in lots of ways that mainstream wouldn't have."

WORK EXPERIENCE / CPP

## YEARS 12 & 13 BIOLOGY

### YEAR 12 BIOLOGY 2002

#### 2002 Students' comments on the subject:

*Bio is amazing.* Zac Anderson  
*Biology has been a great challenge.* Adam Mills  
*Bio is so neat. I love studying ruminants like sheep and cows.* Shane Stevenson

#### Comments on field trips to Back beach and Barrett's Domain in term 1:

*The trip to Back beach was one great field trip!!* Gareth Tai  
*Pretty mean trip, lots of fun.* Daniel Graham  
*Really cool, but I fell over and hurt my back!* Jaiden Drought  
*I really enjoyed the practical 'hands-on' element of this biological field trip. The wide variety of Crustaceans fascinated me.* Thomas Prestney  
*Fun, (pause), fun, fun, fun!* Luke Herlihy  
*A really good excuse for some time off school. Remember to check depth of water before you jump into rock pools. I got wet!* Robert Rawles  
*Barrett's Domain had lots of trees!* Gareth Tai

#### Comments on the cheese making in term 2:

*MMMM, cheese...* Zac Anderson  
*For sure – making cheese is real fun.* Gareth Tai  
*I am the greatest cheese maker on earth!* Luke Herlihy  
*We should become professionals!* Robert Rawles

#### Comments on the animal dissections in term 3:

*Rats smell funny...* Gareth Tai  
*Best part of Bio, cutting up animals.* Daniel Graham  
*Most fun in Bio all year.* Jean-Pierre Le Prou  
*The blood and guts were cool.* Thomas Prestney  
*Poor Stuart Little... 'Anony mouse'*

#### Comments on talk by DOC on Taranaki in Term 3:

*What has DOC got against possums and goats anyway?* Luke Herlihy  
*Interesting and informative.* Robert Rawles

### Reports on the Year 13 Biology fieldtrips by Arjun Nath

#### Trip to Kawaroa Beach

The purpose of this fieldtrip began as an investigation of the inter-tidal shrimp. It ended as a competition as to who could catch the most shrimp. Many groups decided to exhibit the superiority of their species (human, we presume) by wiping out entire populations within the rockpools. Being gentlemen, however, we spared pregnant females.

The fieldtrip required careful observation of the shrimp in its environment. Many astute students noted that shrimp struggled to survive out of the water. We concluded that the shrimp was a marine animal (five minutes on the rocky shore and we had already begun to learn!).

The specimens we brought back included samples of seawater and several shrimp of varying sizes (including a juvenile shrimp that I affectionately named Shrimpy). The fieldtrip tested us most in our ability to remain objective in our analysis of the inter-tidal shrimp. This meant that any conclusion would be valid if and only if it was supported by experimental evidence. Though many shrimp were caught, a silly mistake ended the lives of many shrimp in the aquarium (ethanol was accidentally poured into the tank). But eventually all shrimp were replaced, thanks to the shrimp-catching expertise of Mrs. Marshall.

The writer thereby dedicates this article to those who have given their lives to science (both literally and metaphorically). Rest in peace Shrimpy.

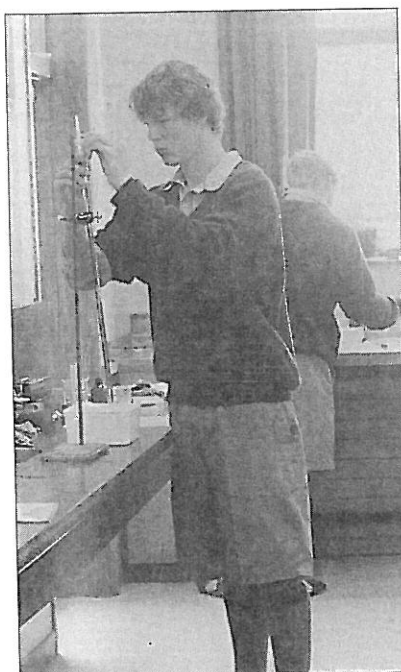

#### Trip to Mount Egmont / Taranaki

Being the 'fieldtrip to end all fieldtrips', the trip to the mountain to study the Manuka was our last attempt at freedom before returning to the constraints of the classroom. Our day began as a bus ride in darkness towards the mountain lodge.

The lodge would be the starting point for our scientific investigation and being scientists, we were offered the opportunity to use such sophisticated equipment as transects, measuring sticks (which we biologists refer to as rulers) and compasses. Surveys were taken at the lodge, Konini walk, Wilkie's pools and Potaemo swamp. The sheer magnitude of these results perplexed many students (and we hear that some continue to receive therapy), however all became startlingly clear when it was interpreted in the classroom.

Most results complied with our original hypothesis that Manuka are colonisers, yet some managed to disprove the theory. (These Manuka are a cunning lot!). And so ended another adventure on the mountain for Mrs. Marshall, Mrs. Donaldson, Brother Steve and their cavalry of weary 7<sup>th</sup> formers.

Will 2003 be a return to the mountain? Only time will tell.

## YEAR 10 MT RUAPEHU SNOW EXPERIENCE

**Monday 9<sup>th</sup> September**

We turned up at school and assembled outside by the bike stands. After sorting out what vans we were going in, we packed up the vans and headed away. First off there was a bit of a detour to Doyles in the Richmond Centre so Mr Neeson could buy something. After the interruption we began what was going to be a 3 hour trip at 10.00am to the Whakapapa ski field. At 11.00am we stopped at Mokau for an early lunch. After the sandwiches were eaten and the pot of tea finished by Mr Neeson and Mr Stuck we were back on the road. We turned off at the 8-mile turn off. We travelled for another 1 & 1/4 hours on a road that seemed to lead to no where. We finally reached a little town where we went and hired our ski and snowboard gear from Roy Turners ski hire. It took an hour or so for everyone to get what they needed and we were back on the road. The road up the mountain was a step one which the vans only just managed to get to the top of but we made it. We spotted our

lodge 'Snowline' at the top of a hill covered in snow and rock. After a bit of moaning from some people we lugged our gear to and from into the lodge. We put our gear in our rooms which we were allowed to arrange ourselves. Some of us put on our skiing clothes and went to try our gear out. Others just explored the lodge. The chef who lives in the lodge cooked dinner that night. The dishes were done by the rostered room. After tea we sat around playing cards and talking.

**Tuesday 10<sup>th</sup> September**

We awoke fairly early in the morning and went up to have breakfast. After the dishes were done we all went up to get our ski pass. When Mr Neeson and Mr Stuck returned with the passes we took the lift down into happy valley. We placed our bags by some rocks and then we were away only to find at the bottom a line for the lifts that took about 20 minutes to get through. After that most of us just decided to stay up the

top and use the platters which only took a few minutes to get through. Everyone got the hang of it and got bored with Happy Valley, so after lunch Mr Neeson and Mr Stuck took us up higher to the tow ropes. It was a lot quieter up there. Time passed and many a glove was ruined by the tow rope. Time pushed on and we had to head down the mountain. After a long walk back to the lodge we changed into warmer clothes. Once again dinner was cooked by the chef. The dishes were done afterwards by the rostered room and we just did what we did the night before.

**Wednesday 11<sup>th</sup> September**

We woke once again looking forward to another day on the slopes only to find that the entire mountain and road was closed. Some boys went outside and built a ramp on the snow just outside the hut and others stayed inside and played cards and chess. No one was keen on tramping or rock climbing in the blizzard. I think most would agree that was

the biggest down point of the trip. Dinner was cooked and then cleaned up and a lot more cards were played.

**Thursday 12<sup>th</sup> September**

We awoke to a day that we will remember. The sun was shining and everyone knew it was going to be a great day. We rushed through breakfast and headed off to get more ski passes. This time they were passes which allowed us to go much higher, We took one slow lift up to where we had been on Tuesday and then took one more which was the express lift up the platters. The platters were a lot better than the towropes and everyone was happy. Mr Neeson, Mr Stuck and Kelly left us to check the conditions of the other lifts. After many runs down the platters Mr Neeson got back and took us over to the Waterfall T-bar. We spent the rest of the day there. It was heaven. It was a long hilly course and lots of fun. But the only thing was not everyone could use the T-Bars so a few people went back to

the platters. When the day was done we were allowed to snowboard/ski down. That was a lot of fun.

We went back to the lodge for hot showers for everyone. That night after tea a few people packed up but the rest were leaving it for the morning. Mr Neeson took the gear that was hired back.

### Friday 13<sup>th</sup> September

In the morning we were woken at 6.30am. The people who did not pack the night before packed then we went for breakfast. At 8.30am we left only to find that one of the vans had a flat tyre. After it was fixed we headed down the mountain. We were on our way home after a memorable trip. Once

again we stopped in Mokau for lunch. There was a lot of chicken ordered and chips eaten.

Once back in the vans we noticed that the other van had taken Daniel's car kit for the CD player. Mr Neeson stopped at Roadworks a little down the road and after a little fun retrieved it. Mr Neeson then dropped a few boys off on the way through town but the rest assembled back at school where parents were waiting to pick them up.

Mitchell Galvin

## TOURISM DEVELOPMENT GEOGRAPHY FIELD TRIP TO ROTORUA

The Okato bus sailed through the King Country hills with ease. Stopping for lunch at Bennydale the former coal mining town, we were in Rotorua by early afternoon. The purpose of our 3 day trip was to study a Cultural geographic process, tourism development. We stayed at Keswick Camp at Holdens Bay on the eastern shores of Lake Rotorua. This was to prove comfortable and interesting.

Rotorua attracts 1.6 million tourists each year, 40% of them international and 60% domestic visitors. As a result the city has a massive range of services, accommodation, attractions and facilities which are provided to meet the needs of these travellers.

We had several informative speakers, firstly from the Rotorua Museum on the history of tourism, then on the next day the domestic tourism marketing manager gave an entertaining overview of the industry in Rotorua and the District Council's role in encouraging that growth. The manager of the Agrodome was the final speaker on the last day, and our visit there provided the students with great material about the development of Adventure Tourism.

The visits to attractions are the highlight of such a trip such as the Lake foreshore and Ohinemutu village are both superb examples of interesting and accessible attractions that are free. The hot springs and mudpools of Hell's Gate, the thermal baths at Waikite, the Skyline Skyrides Gondola and luge rides, the Agrodome farm show packed with enthralled Asian Tourists. The thrilling Jetspint ride, the Swoop, Zorb, Freefall and Bungee jump are all available at reduced student prices and these were a big hit.

The mapping and land use study work make the pupils really focus on the Tourism development topic, providing excellent case study material for the Bursary exam and a sound understanding of the impact of this sort of development upon a community.

The students represented the College with pride and contributed towards continuing the valuable role fieldwork can play in learning.

Special thanks to Mark Walsh for his assistance and cheerful support on the trip.

R. MacNicol, Head of Geography.

## JAPANESE REPORT

Another interesting year has passed quickly. Our senior students have had three opportunities to visit the International Pacific College in Palmerston North. Two were exciting weekends spent immersed in Japanese language and culture, and one an opportunity to take part in the IPC speech contest.

In August a mixed level group of eight Year 12, 11 and 10 students made the annual pilgrimage to the Massey University regional Japanese speech competition, and this year there were 46 competitors- many more than usual. In the morning before the contest we worked with Adele Lilly at Teachers' College for an hour and a half, then moved on to the University campus. We heard a wide variety of speeches from rep-

resentatives of schools over a large area- from Hawke's Bay and Taranaki in the north to Levin in the south, and were thrilled when both our speakers were placed highly commended. Kyle Crowley in Division 1 and Chris Wicky in Division 2 were awarded bags of goodies for participation and an expensive dictionary each for their prizes. It was a valuable experience for everyone.

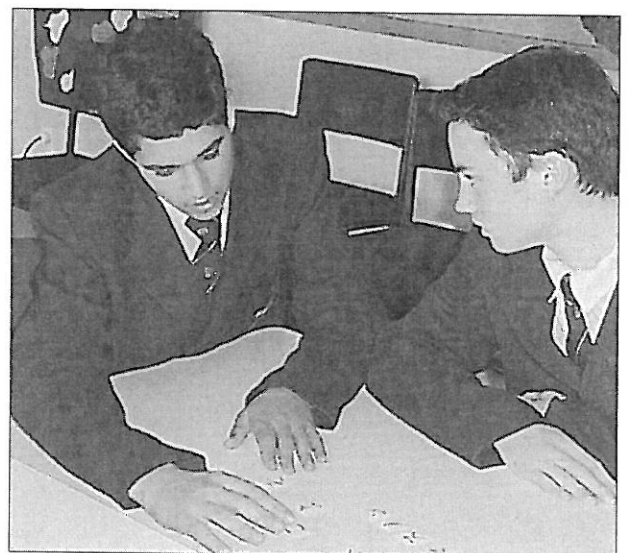

The last term of the year has been a new experience for many of us, largely working independently but with some assistance for the NCEA students from Adele Lilly, while our teacher studies to improve her Japanese language fluency in Osaka.

Chris Wicky  
Highly commended in  
Division 2 Speech Contest

Kyle Crowley  
Highly commended in  
Division 1 Speech Contest

SPANISH REPORT

These are Year Nine student responses:

We created a piece of wonderful art on Ecuador. This is a part of our excellent Spanish year and we are all having alot of fun. Even though this year has been very hard we have all learnt alot.

By Ryan Hall and Alex Granger

William and myself feel that our project was a masterpiece. Our colourful flare and variety of pictures of Venezuela complemented our pages of information. We also discovered in our enlightening trip to Venezuela, that it is not only the country that is beautiful but also Venezuelan ladies.

By Shaun Butler and William Coulton

Justin and I did our project on Mexico.

By Justin Megaw and Connor Landrigan

Year 9 Spanish is a fun class to be in. It is well organised and cheerful. Hanann and I liked learning and doing a project on another country.

By Craig Jamieson and Hanann Middleton

The Year 9 Spanish class for 2002 is a well organised class with every one learning a lot. From animals to music it's been alot of fun.

By Thomas Crowley and Darryl Mcdavitt

Morgan Armstrong and I enjoyed making our project and finding out information on Bolivia. We also didn't know that so many countries around the world spoke Spanish.

By Kurt Roberts

The year nine Spanish class this year has been a success. I have learnt alot and found out that

other Spanish speaking countries such as Uruguay, very interesting and exciting. We found out that this country has the second most number of sheep in the world!

By Michael Julian and Joseph Dravitzki

We enjoy this Spanish class because we do a lot of hands on projects like the one that we have most recently done. Spanish is fun to learn and we enjoy it very much. We find an assett to learn another language.

By Jade Gavin and Tim Grant

We learnt many things and enjoyed doing a project on Chile. We enjoyed and benefited from this year.

By Sam Connolly and Amiel Day

Spanish is a second language to me. It is spoken all around the world and especially in South America. It will allow me to travel more broadly and it will be easier.

By Alexander Nicholas

Spanish is a language that you have got to get your tongue around. Tomas Bridgeman and I studied on a country we had never heard of; The Dominican Republic.

By Shane Sullivan

We created a project on Argentina.

Spanish overall is most enjoyable. We have learnt alot in just one year. Everybody in the class works very well together and there is a positive learning environment. We are really looking forward to Spanish next year.

By Isaac Trevis and Shane Siverson

## YEAR 10 SPANISH

I think Spanish was a great experience and everyone should give it a go. I learnt quite a bit in Spanish and I am very grateful for having it. Mrs. Barrientos is a great teacher, she even gives us cake!

Torran Lepper

Spanish was quite a bit harder this year than it was compared to last year. Mrs. Barrientos gives us cake.

Kade Sorensen

Spanish is an excellent subject with many opportunities. We learn verbs, nouns and the basis for reading, writing and speaking the language. Spanish is a widely spoken language throughout the world so even the basics can help.

Jason Robertson

In Spanish we have learned many useful skills for the future. It is an excellent subject to take. We have been having fun and learning at the same time throughout this year. It touches up on your English at the same time that you learn another language. This will be very helpful in the future.

Daniel Coombes

In the two years I've spent in my Spanish class, I have learnt and developed my Spanish. I have enjoyed the time I spent in this class and I will be continuing next year.

Lenny Berghan

Going to Spanish classes was a great experience and challenge. Learning a new language was a rewarding experience and there was a lot of fun, encouragement and 'goodies' involved. I felt that learning Spanish was quite easy.

Jonathan Crehan

This year's Spanish class was very motivated and productive. We learnt over one hundred verbs and animals and many more things. In choosing Spanish at the beginning of the year I knew that I would learn many new things because I had already taken the subject the previous year.

Zenek Zurakowski

It has been enjoyable working with this group throughout the year. We have all come a long way in developing our Spanish and have Mrs. Barrientos to thank. It's a worth while subject and a great language to have with you. I look forward to next year.

Matthew Kissick

Choosing to take Spanish was the best choice I could ever have taken because I have learnt many different things. It has given me renewed respect for other languages. Spanish had excellent learning with ten students in the class.

Matthew Bloomfield

## YEAR 11 SPANISH

This year's year eleven Spanish class consisted of eight students, now continuing Spanish as a senior subject. As a class we were able to greatly improve our grasp of the Spanish language. Our fluency and pronunciation are improving.

As the year progressed we all found ourselves speaking more naturally, by the end this year being able to carry out conversations and take instructions fully in Spanish.

Once again we received enormous support and encouragement from our Mrs. Barrientos. Concepts such as verb conjugation games and "sweet" incentives help us develop our vocabulary and knowledge of the language.

Daniel Burkett

### YEAR 11 SPANISH CLASS

D. Burkett

## MISSION ACTION DAY

It was a case of having a Plan B this year because the weather was rather unkind on the Friday before Labour weekend. After having a beautifully sunny Thursday the cloud bank rolled in that evening and on Friday morning there were heavy downpours. It didn't stop us though and after an uplifting liturgy led by Mr Mustchin and senior students everybody set off for the walk around the Frankley Rd block. Instead of going over the farm, the walk was shortened to adapt to the conditions and students went out the main gate, kept to the road all the way round and back in the main gate. Throughout the whole time there was only one brief shower and students behaved impeccably and seemed to enjoy the opportunity for a pleasant amble.

The wonderful spirit of generosity in the Lasallian community was seen by the \$12500 raised by way of sponsorship. This money is specifically targeted to the Hohola Youth Development Centre in Papua New Guinea, which is under threat of closure without the support of other Lasallian communities like FDMC. The students are to be congratulated for raising such a significant amount and special thanks to Graeme Crehan who raised over \$200, and Owen Clarke, Josef Konlechner, Nick Brophy, Hugh McCullough, Andrew Cronin, Daniel Malili, Daniel Healy, Martin Barrientos, Daniel Buhler, and Simon Velvin who all raised over \$100 each. What a great effort. Many thanks are due to all the staff, parents and all other sponsors who contributed to the grand total.

## YOUTH MINISTRY

"You are Salt of the Earth and Light to the World"  
Matt 5:13-15

Those words chosen by Pope John Paul II were given to the young people of the world at the beginning of the year as the theme for the World Youth Day. These words from Jesus, have also had a significant effect on my ministry. I have used this scripture to remind students that they are already gifted and to encourage them to use these gifts to the best of their abilities because we all have a responsibility to be light to others and to make a difference wherever we may be.

The year began with visits to all the year 7 and some year 9 classes explaining what my role is as Youth Minister. This was done in collaboration with our school counsellor

Ms Carol Land to give the new students a better understanding of how there are staff at the school who support them in different ways and that we as a Youth Minister and counsellor are there to help them spiritually and emotionally.

I have been involved here at the College in all types of activities such as school masses, youth masses, retreats, prayer with students and staff, Christian Leadership, Ash Wednesday and Holy Thursday celebrations, camps, sacramental programmes, R.E. classes, pilgrimage and my own professional development. It is always a blessing for me to be involved with students and staff. The young people are challenged to direct their energy into many types of different activities which are provided for them in a school and parish setting.

Our Catholic school provides them with an added dimension of faith which recognises that God is always with them. It is rewarding to see young people mature in their faith journey as they move beyond their childhood faith and begin to wrestle with some of the big questions of life.

By providing a variety of faith experiences they can be made more aware of who God is for them. One such experience this year was participating with young people on a three week pilgrimage to Toronto, Canada to the World Youth Day. This was an enriching time for all who participated. Some of the times were difficult and we came back changed individuals but stronger because of the prayer and eucharist we had shared, the friendships we had made, the things we had learnt and the things we had seen.

Indeed this year will be one to remember. In closing I would like to share the following reflection with you.

Yesterday is history.

Tomorrow a mystery.

Today is a gift.

That's why it's called the present!

This life is special. Live and savour every moment. This is not a dress rehearsal.

WORLD YOUTH GROUP  
Mrs M.La Berge,  
P.Bradford, S.Martin

## WORLD YOUTH DAY IN TORONTO

*"Come and make the great avenues of Toronto resound with the joyful tidings that Christ loves every person".*

This was the invitation Pope John Paul II, extended to the youth of the world to join him for the 17th World Youth Day this year in Toronto, Canada. Two students from this college, Patrick Bradford, Simon Martin and our Youth Minister Margo LaBerge took up this invitation, along with Fr. Craig Butler, and five other young people from our Diocese. We then joined 60 other New Zealanders, and a total of 800,000 youths from around the world.

Before we left, we were involved in formation sessions to further develop our faith, practical preparations, fund-raising events, and a meeting with the mayor, Peter Tennent, who commissioned us to be Honorary Ambassadors for the city of New Plymouth.

A small group of us began our pilgrimage by visiting Margo LaBerge's home town – Legal. There we witnessed a bi-cultural French / English mass, attended the Calgary Stampede, featured in the local newspaper, and met Janelle – singer of the international World Youth Day Theme song "Salt of the earth, light to the world". (Coincidentally she was also Margo's niece!).

Following this, we met up with the remaining New Zealand contingent. The following two weeks saw us grow particularly close-knit because of the two weeks spent together in Vancouver and Banff. In Vancouver, we participated in everything from outdoor masses to service projects, a day with the first nation people of Canada to bush hikes (it was rude to call it 'tramping' and cultural performances to a large mass of 1200 youths heading towards Toronto. In Banff, we witnessed some spectacular scenery - walking on the Athabasca Glaciers, hiking, and simply marvelling at the awesomeness of God's creation.

Simon's experience for the first two weeks was different than ours as he represented New Zealand and our College at an international Lasallian symposium in Quebec City and then joined us afterwards for the week of World Youth Day activities.

Then onto Toronto - where the streets, train

stations, subways, parks, churches, buses and walkways were filled with the joyful resounding of catholic youth from all over the world. There, we participated in a week of activities, from catechesis sessions, to masses, reflection to youth festivals. We witnessed countless displays of culture, swapped pins and exchanged experiences of faith – all this, building up to the final day – a mass celebrated by Pope John Paul II.

The 'World Youth Day' however, was not without it's challenges. With 800,000 people sleeping under the stars in preparation for the Pope's arrival, the heavens opened at 5:30am and the heat wave we witnessed the day before, turned into torrential rain and gusting winds. That along with the frogs and mice, a draining 8km walk (in 45 degree temperatures), and the 2 hour long missions to the cluster of 6000 porto-loos – at times, tested our resources and endurance. With youthful intuition however, the site progressed from an old airport runway, to what looked like a refugee camp, with cardboard rubbish boxes used as shelters, and plastic bags as raincoats. But as Pope John Paul himself said, *"I have seen enough evidence to be unshakably convinced that no difficulty, no fear is so great that it can completely suffocate the hope that springs eternal in the hearts of the youth"*. This youthful hope was clearly witnessed at the Pope's mass, when representative's from over 150 countries were unified in song, prayer, communion and a common desire to celebrate their faith with each other.

All in all, Canada was an experience we will never forget. We witnessed the 'biggest of the big', from the Rocky Mountains, to the hospitality of locals. We saw the biggest jars of peanut butter, massive crowds of pilgrims, rocketing thermometer readings...but biggest of all was the impact the World youth Day experience has had on our sense of Church family and unity. Pope John Paul called his youth to be *"salt of the earth and light to the World - to keep alive the words of eternal life...and improve the taste of human history"*. The passion and energy Toronto witnessed this World Youth Day was just a taste of the hope youth hold for the church, but as John Paul II reminded us: *"holiness is not a question of age; it is a matter of living in the Holy Spirit."*

# ENRICHMENT PROGRAMME

This year has been another busy one within the Enrichment programme. It was decided to put an emphasis on Drama and so to this end Sara Ashworth was employed. She took a group of Year 9 and 10 students for 4 two hour blocks on Dramatic technique early in the year. In Term 4 the same opportunity was given to a group of Year 7 students. Hopefully this will encourage students to be involved in drama in the College.

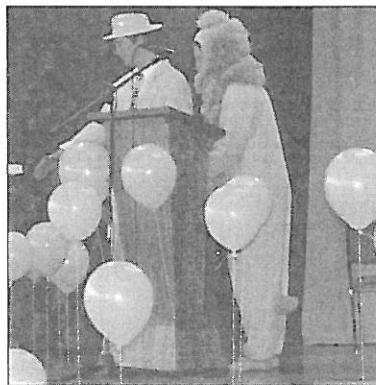

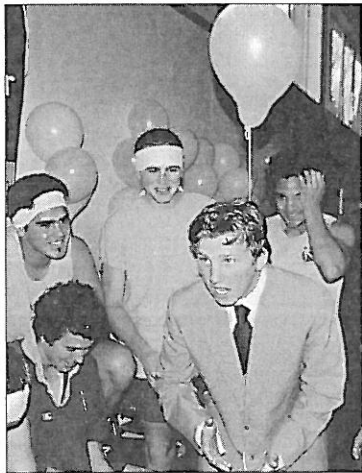

We have again had a Leadership programme as part of Enrichment. A group of Year 12 boys travelled to Auckland in Term 1 to attend a National Young Leaders Day. This is a worth while motivational excursion. Others have been to Turangi on Outdoor Educational courses, to the United States, to Wellington and two groups

have been on programmes in Waitomo. The idea is to inspire others as role models both in and out of the class room.

There have also been Computer Programming days, Science courses, Maths Workshops and Poetry workshops. Boys ranging from Year 7 to Year 12 have been involved. The activities are either subsidised by the College, paid for by the students or fully funded from the Enrichment budget. The idea is to have a variety of activities to involve as many students as possible. I would like to thank the BOT for their encouragement of this programme on behalf of all students who have benefited this year and those who may benefit in the future.

M C Milne

## YELLOW RIBBON

## LIBRARY REPORT

Our aim as librarians at Francis Douglas is to try and ensure that pupils leave the school knowing the pleasure of reading, finding the thrill in exploring an exciting novel, non-fiction book or computer resource and feel at ease with coming into the library.

If we succeed in this then we have laid down a foundation of using a library to its full extent that will be of future benefit to the boys for life-long learning.

It is important to keep abreast of the latest developments within the school library service and this year Miss Jordan and myself have attended several workshops and many network meetings. In June the school library hosted a National Library mini conference. It was called "Spice Up Research with SAUCE", the speaker being Dr Trevor Bond from the University of Waikato. The subject discussed was the importance of good library skills being an intricate part of all lessons. SAUCE meaning search, acquire, use, communicate and evaluate. No sooner had we settled down from this conference than Miss Jordan and I took off to Wellington to attend the SLANZA Conference (School Library Association of NZ Aotearoa). The key speakers at this conference were William Taylor and Kate de Goldi, who are well known New Zealand writers of children's fiction. Both spoke of the importance of stories in the lives of children.

Lois Lowry, a renowned author of children fiction said in a speech she gave in 1994 after winning the Newberry prize for Childrens Literature

"The man that I named the Giver passed along to the boy knowledge, history, memories, colour, pain, laughter, love and truth. Everytime you place a book in the hands of a child, you do

the same thing. It is very risky.

But each time a child opens a book, he pushes open the gate that separates him from Elsewhere. It gives him choices. It gives him freedom. These are magnificent, wonderfully unsafe things."

She was talking in context about a character in one of her novels called "The Giver", which is an extremely thought provoking book about knowledge and who should possess it.

We try at Francis Douglas to keep up with all the latest books both fiction and non-fiction, especially books published in New Zealand. This year we have

purchased over 500 new books for the library. We try to keep up with the many changing facets of library up-skilling as our knowledge base has to change and broaden each year. These are exciting times to be working in a school library.

As the school year draws to a close I would like to take this opportunity to yet again thank our volunteer workers for the outstanding contribution they make to the running of our library.

Mrs Margaret Wright, who has helped with book processing and has acted as relief librarian when called upon and Mrs Jean Thorne who works every morning in the library with shelving and keeping our vertical file up-to-date. Without these two ladies, Miss Jordan and myself would not have quality time to spend with staff

and pupils on their enquiries.

From Miss Jordan and myself best wishes for 2003. We hope that you all have a safe, happy, relaxing and enjoyable holiday season, and we will see the majority of you in the New Year.

Mrs Jean Reed

## JUNIOR SPECIAL AWARDS 2001

### First in Subject Awards 2001

#### Year 9

9B	Joseph Bradley	Mathematics

Year 13 Presentation of a painting to the school held by House Leaders Hamish Irving and Sam Schumacher

Fr Burke, Br Bill Firman, The Mayoress, The Mayor, Ben Whittington and Jonathon Milne - the Official Party at Senior Prizegiving 2002

Year 13 Graduates 2002

SENIOR PRIZEGIVING 2002

## Dux

This year's dux is Blaise Drinkwater who came to this school as a year 9 student in 1998. Blaise is from Inglewood where he went to St. Patricks School.

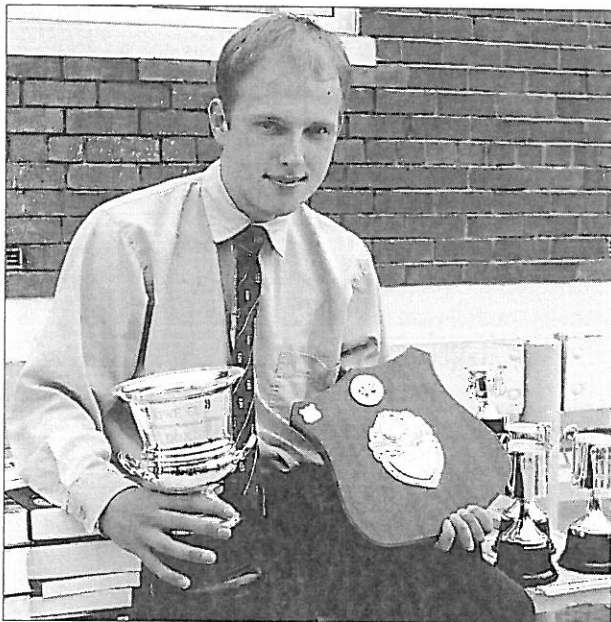

While in year 13 Blaise has been studying English, Mathematics with Calculus, Mathematics with Statistics, Physics and Chemistry. He has recently sat NZEST scholarship examinations in all five subjects.

At prize giving this year he was awarded Attainment in English and first place in each of his other four subjects. As well as the academic awards he was the recipient of the Drinkwater-Smith shield for his involvement in Drama in the school.

In 2003 Blaise intends being at Victoria University to study for a BA/BSc in English Literature and Mathematics.

While at school Blaise has been involved in many different activities. He has participated in O'Shea Shield over several years in Religious Questions and in 2002 was the winner of the Impromptu Speech. In the Taranaki Secondary Schools Speech and Drama, he has worked with the Drama since year 9 and over the last couple of years has been both the writer and director. In 2002 he organised a chess tournament and in weekends he has played morning grade cricket for the school.

Looking back over his time here Blaise says one of the highlights was winning at O'Shea Shield in 2002.

## Proxime Accessit

Simran Singh is this year's Proxime Accessit. He began school here in 1996 as a year 7 student having come from Westown Primary School.

In year 13 he has been studying English, Mathematics with Calculus, Physics, Chemistry, Biology. At the recent prize giving he was awarded first in Biology and Attainment Awards in English, Mathematics with Calculus, Chemistry and Physics.

In 2003 Simran intends going to university either in Auckland or Dunedin to study medicine.

Simran enjoys sport and music and while here he played cricket most years as well as being in Youth Grade soccer in 2001. He also plays guitar and drums. Simran says he has really enjoyed his schooling especially years 12 and 13. After the sciences split up he says that made it more interesting.

Looking back over the last seven years, he says it's a good school 'with great teachers who all have personalities'. He has especially enjoyed his own year group because they are all good friends.

Once Loved

Have you ever met a flower?  
One so beautiful that it fills the room with awe.

The remembrance of the encounter, that one time,  
Still stings like the bee that comes within the petals.

You can begin to allow the flower sustenance,  
But do not nourish your hope in it, as it will bear no fruit.

It is difficult to provide enthused husbandry to a rose bed  
That has pricked you,  
Therefore, you can see how it is difficult to be a friend to one  
Who refuses to love you!

So it was,  
My heart was forever punctured by the needle of discrepancy.  
Although the longing for the feeling of belonging  
And being wanted remains.

Kieran Callaghan Year 13  
Winner of Senior Literary Award 2002

**Sonnet with Two Intermezzi**

At night, the crockery comes out to play  
and wreak joyous havoc upon earth.  
Little do we know of the end of day  
in our kitchens, where plates are filled with mirth  
as opposed to soup  
or other gloop.  
At last they're free to roam the house and clock  
up inordinately large internet  
bills. And I say that the lock, stock and barrel  
of our woes is the crockery set.  
While we the clueless  
lie, asleep, quite shoeless.  
Mischievous! Chaos! Exclamation marks!  
They steal socks and ball-point pens, and bored,  
it's not unusual for them to abduct hens.  
And if you think you're pretty neat 'cos your  
Crockery somehow wound up in Tonga -  
just think that mine declared war on Whangamomana.

Blaise Drinkwater - Year 13

### A Special Memory

Memories are recollections that are treasured in our minds for life. Locked up for later years they will bring joy when in need. It saddens me to have such a vague collection of memories connected to my grandfather. It frustrates my Dad that I can't remember aspects of my early childhood when my granddad was present. It is for this reason that this one, strong memory means so much to me. As I recollect, a sensation of happiness fills me almost as if I'm being carried back to that very moment.

White specks dotted the hills resembling a scattered herd of sheep in a far paddock. It was a picturesque day with only a powdering of fluff on the horizon. Jack had left a small dusting of frost the night before but it had now been diminished by the intense heat of the day's sun. Not even a breath of wind was present to ruin this fine day.

Retiring from his farm and shifting to town my granddad had lined up his unwanted yet sentimental farm possessions in two rows stretching around one hundred metres across the width of a paddock. The way that he surveyed his things I could see that he was impacted by the fact that he was leaving his present life and moving on. Together we strolled through the middle of these two rows. Inspecting every heap granddad made sure that he was doing the right thing. My young curious mind told me to scramble over any climbable thing. Racing ahead of Granddad, my imagination turned the woodpiles into mountains and steel pipes into guns.

Nearing the end of the line Granddad began to slow down and stare distressingly at an object tucked in the corner of the paddock. An old army like truck. I was amazed that I hadn't seen this machine earlier and frantically raced toward it. The wheels almost tipped me off in height. Thick treaded tyres, Six in all held up this mighty warrior. Brushing my hand across the wheel guard I became engulfed in the beauty of the beast. A deep green lightened by the rust that seeped out of the paintwork and the dust, which topped off the colour. A high roof sheltered a long springy seat. Crafted like no other vehicle that I had ever seen before. The bonnet was long and particularly skinny with a rusted out grill at the front, polishing off this master piece. Wooden boards extended from the bottom of the cab to make up the tray behind this giant truck.

I examined Granddad who hands on hips looked on in distress. It was a look that told me that he had a great history with this old truck. Hiking up the side and perching myself in the driver's seat I peered through the misty window ahead of me. Before I could start the engine Granddad was sitting right next to me in the passengers seat. He asked where we were going and I responded with Australia. Together in the grand old truck Granddad and I drove to Australia.

One moment, which I wish, could be paused for the rest of my life. One special memory which will stay with me until I too pass on.

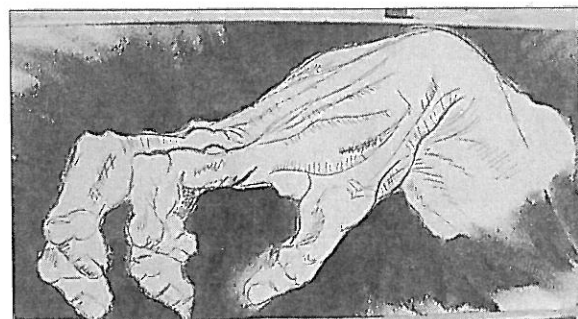

Jean-Pierre Le Prou

### Love is Emotion

Oh how strange an emotion is love,  
Bearing the deepest workings  
Of your heart to the world.  
Strange it is that you feel helpless at the  
Sight of the one you love,  
Helpless like a new born baby  
Reaching for its mother.  
Love is like the brilliant sun, hot, beautiful  
And mysterious like the moon and a  
Star-less night.  
It embodies the passion, grief, joy and elation  
It governs human existence and softens even  
The hardest stone heart.  
But love is also hurtful and tortured,  
Distorted and hated as no other emotion is.  
It strips us of our confidence and destroys  
Our self love, allowing very often self-destruction.  
How? How you may ask can something  
So good be something so damaging and hurtful?  
Well my fiend, no one knows!  
Ask those who speak from shadows.

Kieran Callaghan Year 13

### Waiting for the School Bus in the South Wind

The white continent is bathed in winter's darkness now, brooding, and the winds are stirring once more, coming out to play their malignant games. At last summer's thaw has refrozen, the penguins rise to surface and start their huddle, except for those who stayed behind and are forgotten in the cold waste where the ice claims its land for death. The restless everlasting winds howl and dive amongst the hills, poco agitato, and when their bite is strong enough (to kill and preserve, like formaldehyde rain) they strike North, begin the journey that is their cause.

*North* it screams, over the sea as it flies, bitter and angry, showing the passing isles some cold tyranny of its own, North, ever North.

What now? Birds go to ground, and humans venture out, then retreat in. The sun rises, providing not warmth but glare, and the schoolbus is fifteen minutes late. Every breath is now designed to cut my delicate lungs, the whole pent-up fury of the South has been unleashed on *me*, raging and burning as only an icy furnace can, whispering malevolence and screaming profanities. Curse the South! Or at least cast it to the bottom of the world, where it belongs in atlases.

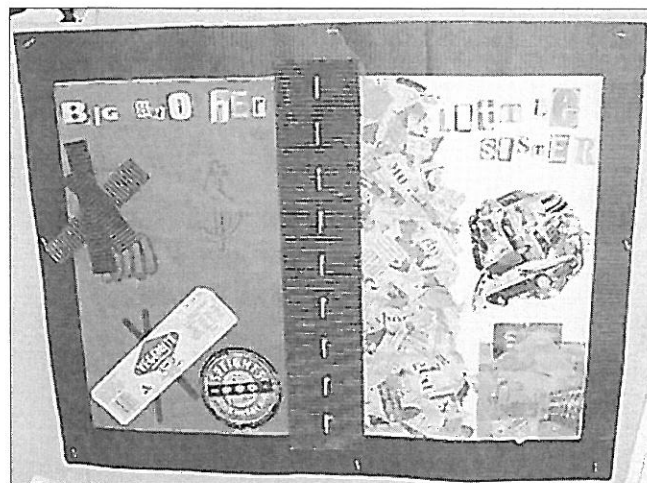

Why me? Am I all that stands in the wind's way?

No, I am in its path, not in its way. If I look closely, I see the wind is only passing me, over me, and it does not notice me to kick my shins or say hello. Soon it will pass completely, reach the North where this same wind is summer.....

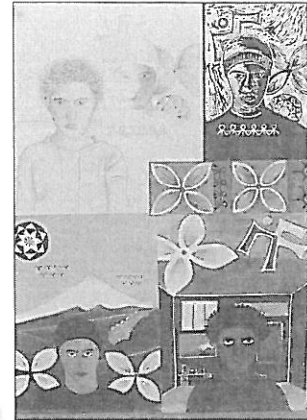

And now I feel I can let it go, that I can give up my struggle.

My noisy metallic womb throws choking air out as if to scorn the rushing air, which simply carries the dark fumes high and far, and disperses them. North, ever North.

Blaise Drinkwater

### THE MOUNTAIN CLIMB

A freezing wind and blinding frost  
sweeps across our faces.  
Stumbling forward, nearly lost  
we look on distant places.

Up and up, travelling forth  
we shall not dare look back.  
For if we do, we're sure to find  
snow gobbling up our track.

On and on we musn't stop  
the whole world is waiting.  
On cozy couches in their homes  
whilst we are navigating.

Through valley floors and rock like doors  
we never paused or tinkled.  
For if we did all we felt  
was very old and wrinkled.

Our goals in sight, we're almost there,  
nearly at the end.  
Striding forth I feel such pride  
because I'm with a friend.

Standing here, on the edge of space,  
I turn and look at Pop.  
With a sparkling eye and smiling face  
he says "well done Brock."

Brock Roberts

## WHY IT?

1415926535 8979323846 2643383279 5028841971 6939937510 5820974944  
5923078164 0628620899 8628034825 3421170679

Of all the things that I am fond,  
Cheese, butter or jam on scones  
There's one thing I love so strong,  
I think about it all night long.

8214808651 3282306647 0938446095 5058223172 5359408128 4811174502  
8410270193 8521105559 6446229489 5493038196

It pi,

It constantly gives me a high.

Some ask why not eta or beta?

To which I reply why not theta or zeta?

It's greater than hotcross buns

It's three point one four one.

4428810975 6659334461 2847564823 3786783165 2712019091 4564856692  
3460348610 4543266482 1339360726 0249141273

There's  $2TTr$  and  $2TTr$  squared,

A circumference if you're dared.

Whether it is a coffee mug or hula-hoop

You drive mathematicians round the loop.

You help us build gardening tools

And large swimming pools,

You create those soccer brawls,

For without you there'd be no ball.

7245870066 0631558817 4881520920 9628292540 9171536436 7892590360  
0113305305 4882046652 1384146951 9415116094

Give us another decimal place,

Don't leave without a trace.

Yes let those numbers roll,

Keep mathematicians off the dole

Year 10

Winner of Junior Literary Award 2002

## PHILIP AND I

I looked at Philip. Philip looked at me. It was 2:30

"What time is it?" asked Philip.

"2:30" I told him, motioning towards the first line of the story.

"Let's go outside" proposed Philip.

"Can't think of anything else to do" I said, not being able to think of anything else to do.

It was 2:30 outside as well.

"Must be a popular time" said Philip

"Oh yes" I answered uninterestedly

"6:02, 3:47, 9:09" said Philip. I stared at him blankly. "Are also popular times" he finished.

"Oh yes"

"Wanna play catch?" Philip said pointing to a ball over there.

"No way" I said. This was something I felt strongly about. No balls.

"Pleeeeeeeze" pleaded Philip. I hated when he spelt please like that.

"No, No, No and No" I told him. No balls. Philip started to cry. "Lets go inside" I said.

Inside, it wasn't 2:30 any more.

"Hooray" cheered Philip, overjoyed that it was no longer 2:30. "What time is it then?"

"2:32" I cordially informed him. He started to cry.

"2:32 is worse than 2:30" he said.

"Why?" I asked.

"Just (sob, sob) is" he said and I couldn't argue. "When's he coming?" Philip asked.

"Who?" I replied, puzzled.

"You know" said Philip, looking at me suggestively.

"Oh yes" I realised who he meant.

"Well" Philip demanded.

"Well what?" I asked.

"When's he coming" Philip repeated.

"Who?" I replied puzzled. Philip started to cry.

It was time to go.

"What time is it?" asked Philip.

"Time to go" I told him.

"No" said Philip.

"Yes" said I. Philip said nothing. "Why did you say nothing" I asked him.

"Did I?" he asked.

"Yes" I said.

I didn't mean to "Philip started to cry.

"It's alright, I forgive you" I comforted him.

I looked at Philip, Philip looked at me. It was time to go.

Joe Bradley

Year 10

### The Meeting

The cold dusk wind whipped around her ankles as the dark shadow of the house stood silent. She could sense its evil, the horrors it held. Feel it spawning from the inner bowels of the structure.

A once blissful home now deranged by the events which had taken place within its walls.

She slowly approached the porch of the house, feeling cold bony claws welcome her as she did. Cautiously she laid a hand upon the doorknob, a nervous shiver jolted up her arm and through her body, but she shook off her doubts and defiantly swung the door open.

The decaying skeleton of the home groaned like some ancient beast as she crossed the threshold. The putrid smell of charcoal and ash was still thick and poured down her windpipe.

She covered her mouth in disgust, feeling as if some vile demon had breached her soul.

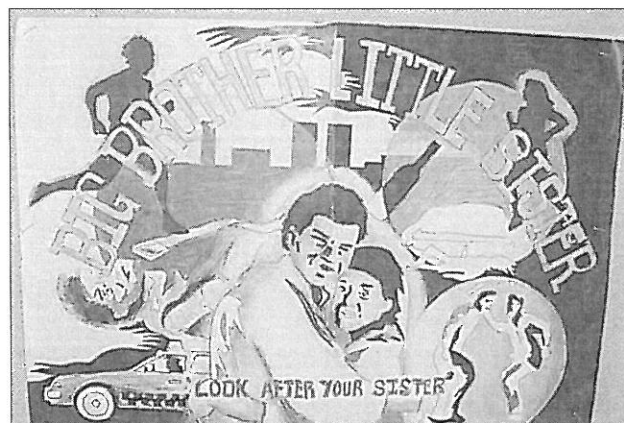

Despite her repulsion she continued to tread deep into the heart of the house. She knew where she was going and would not stop until she got there.

She would have so dearly loved to have one of her friends at her side for this grueling experience, yet deep down knew this thought was unentertainable. No matter how good her friends were they would have recoiled at the prospect of visiting such a place of tragedy, of death.

Many would gloat at her vain attempts to rekindle memories of her parents. It was for that reason that her meeting had to be a secret... As far as her friend and foster parents were concerned she was spending an afternoon at the beach...

They had no idea of her secret rendezvous.

Daniel Burkett  
Year 11

## YEAR 7 REPORT

The Intermediate Department has had a full and busy year that started right from the very first day. We have experienced many successes but most importantly, all boys have been given the opportunity to develop to their full potential, and most have worked hard at doing just that.

During Term 1 the whole school united for the Swimming and Athletics Sports Days. The Year 7 and 8 boys, as always, gave their very best for their respective houses. This enthusiasm helped to make each day a very special occasion.

As Terms 2 and 3 progressed, many boys took part in various Taranaki and Nation wide events that included the Mathematics Spectacular, Linkhorn Cup, Debating and Choral Presentations. Winter Sports, in all their forms, also took place, with extremely high levels of participation and success rates. All the boys involved would like to thank their coaches, mentors and parents for making these experiences possible and giving them a chance to take part.

As the year has progressed into Term 4 the boys have tried to earn special Intermediate Department medallions. These are awarded to students who have continually shown a caring, Christian, positive approach towards those around them. Once again, 2002 has seen a large number of these medallions presented and received with pride.

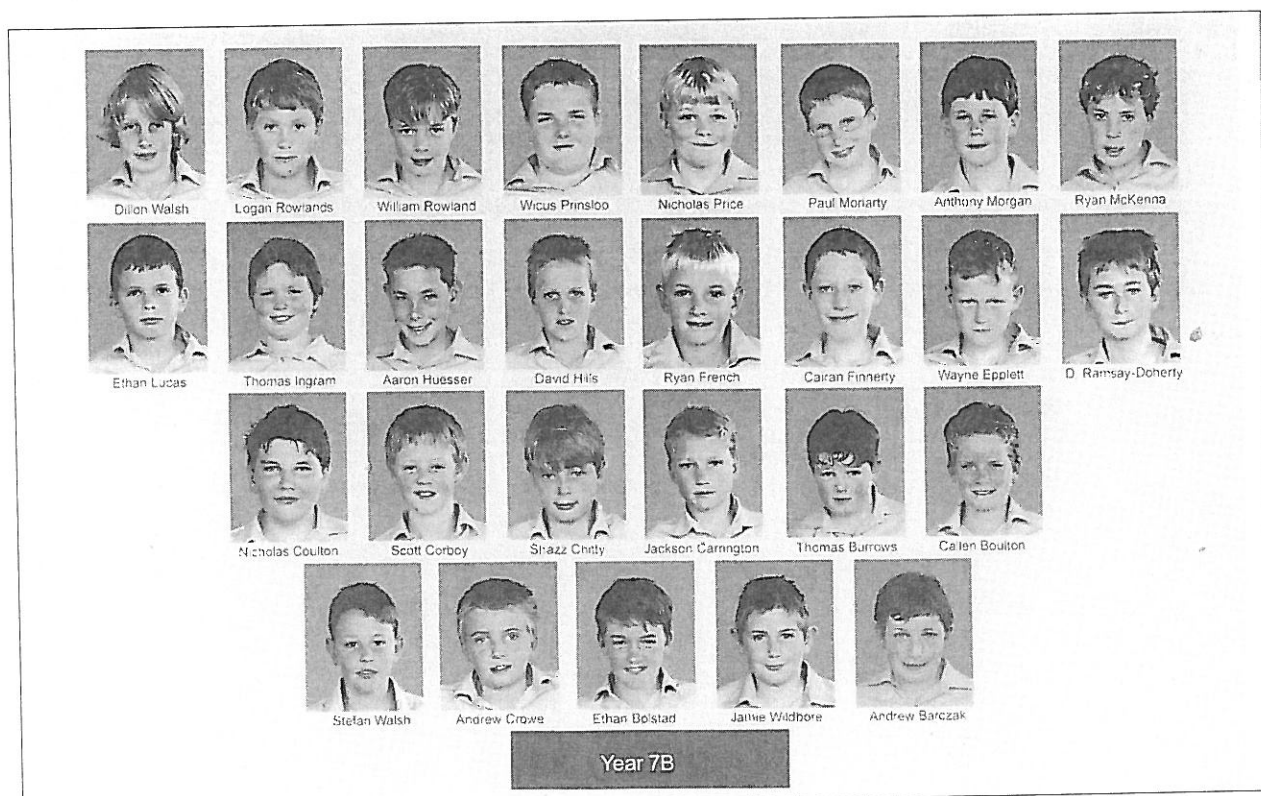

This year has produced many very successful students in academic, cultural and sporting areas. These boys thoroughly deserve the full congratulations that they have received. We are very proud of these boys and their achievements, but even more important to this department, is the overall effort that all the boys have put into the various area of school life.

A fine overall year for all members of the Intermediate Department. We all look forward to an exciting and fruitful 2003.

RICHARD DOHERTY  
DEAN YEAR 7 & 8

## YEAR 9 REPORT

The Year 9 students have enjoyed a wonderful, rewarding year in all areas of College life. For many this was their first year at Francis Douglas and as they do every year, they have mixed in with those who have been here from Year 7 and established their own, unique Year 9 identity.

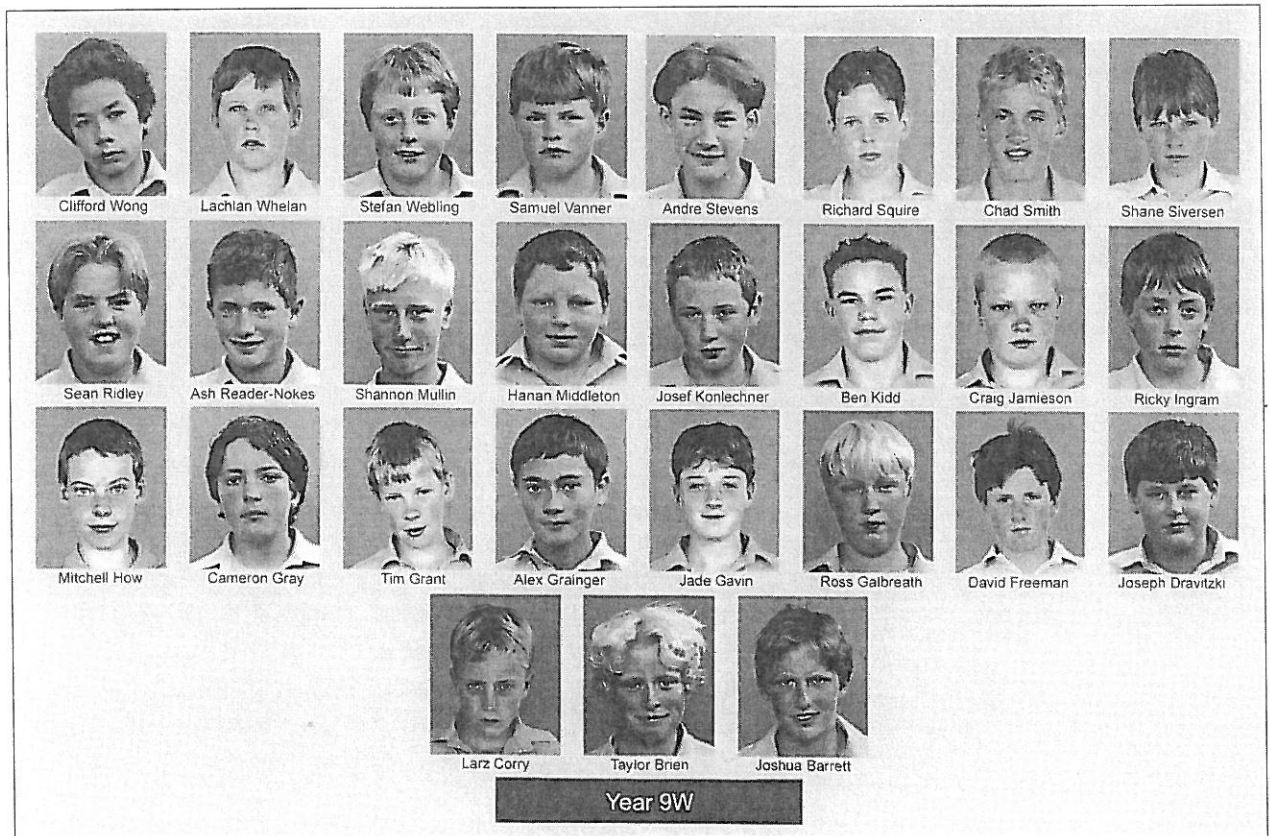

There are so many different activities in the Junior school to get involved in, and it is always extremely satisfying for me as their Dean to see so many participate in the academic, cultural and sporting opportunities that the College provides. Many of the boys have excelled in their chosen endeavours and represented their College and province with distinction. For the others who have utilized their 2002 opportunities, simply the chance to participate with their peers and friends representing their College was reward enough.

For teachers, coaches and tutors to see the rapid development of so many of the boys in Year 9 in any or all of these areas is a great reward for the time and help they have provided.

As I write this, the end of the year is approaching rapidly. The boys are busy preparing for the Year 9 camps, as well as studying for their first experience at the end of the year exams. The thought of going on Camp has the boys excited, while the worries of Exams of course fill the boys with some trepidation. Both experiences I am sure will bring positive rewards and challenges to the boys as they end their Year 9 journey. They have matured and grown as a group and are now ready to step forward to the new challenges that Year 10 will present them.

Bryce Koch Year 9 Dean

# YEAR 10 REPORT

# YEAR TEN

It still astounds me even today, how our boys mature during their "Yr 10 year". Although the standard and expectations were clearly outlined at the beginning of the year, these boys settled into the focus of NCEA preparation, and took their studies seriously. It is always difficult to catch up with the quiet, hardworking students, as they are not usually brought to my attention as Dean. When I did, I was amazed how polite and well organised these young gentlemen were and how they enjoyed their time at this college.

The students struggling with their studies had individual interviews with myself to discuss their reports and what future goals they could set for themselves to improve their performances.

The Yr 10 boys this year, have responded to the strong discipline and monitoring of progress to give themselves a firm spring-board for their NCEA studies next year.

Programmes exclusive to Yr 10 that have been both entertaining, different and of great benefit,

are the enrichment programming, Work Experience and Outdoor Education weeks. These were a great success. They are always contributing to the balance in growth and maturity at this level. I am sure they will all have great memories of their experiences in years to come. Some of the outstanding sporting achievements as a Yr 10 group has been the Under 15's rugby team making the finals, and the Senior B Basketball team's string of wins.

I have enjoyed working with these young men. It is not until you go away on an outdoor camp with them, you realise their good humour, kind hearts and their awareness of the changing world they live in.

I am looking forward to seeing them succeed in their study pathways in the future. All the best.

Year 10B

YEAR 11 REPORT

2002 brought many outstanding achievements in the field of sports. Our star soccer player, Tom Peacock, snatched a once in a life time opportunity to trial for the English Premier side Middlesborough. Well done, Tom. We were represented by Scott Fuglistaller and Riley McGregor in the 1<sup>st</sup> XV. Both boys looked promising and will no doubt shine next year. Rugby accomplishments also stretched out of the College and into the Taranaki region with Shaun Poole and Jacob Smith making the Taranaki Under 16 rugby team. Great effort.

Moving away from rugby and into some of the other sports which brought many superb achievements, Riley McGregor and Jason Meuli were selected for our schools 1<sup>st</sup> XI cricket team. Riley went on to represent us at Taranaki level for the Under 17 team. Andrew Julian and Phillip Walsh made the boys proud at the surf life saving with gold medals for the sprint at the New Zealand Under 16 champs. Liam Collins made the Under 18 Taranaki Hockey team. At the New Zealand Cross Country champs held in Blenheim Shaun Poole, Joel Schrader and Ryan Christensen showed the true effort and tenacity that Francis Douglas gives in competition. Last but not least Zac Beardman became a non-travelling reserve in the New Zealand Under 16 In Line hockey team. Well done.

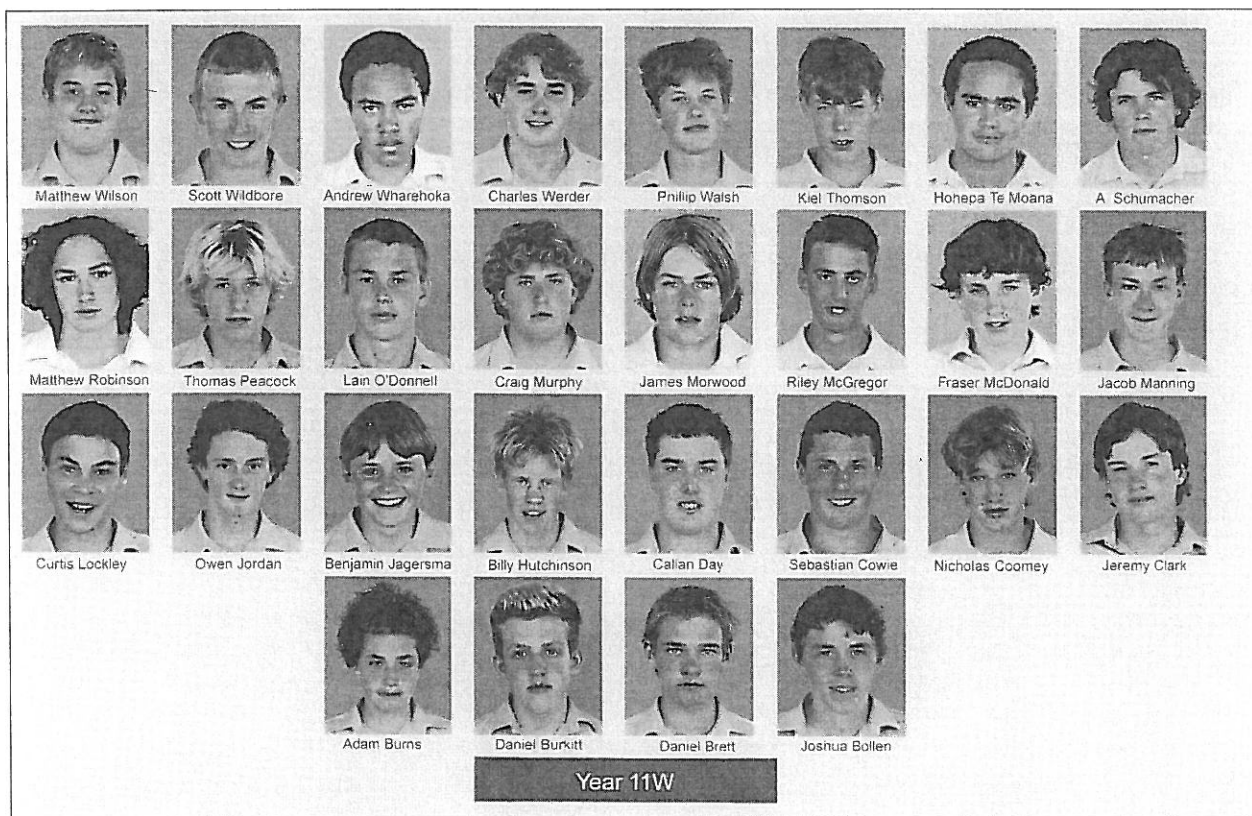

History was made this year with the first school organised Year 11 social ever. Much enjoyment was had when the boys integrated with the girls from our sister school Sacred Heart Girls' College at the Salvation Club. This could not have been completed without the amazing effort by Mrs Simpson. Great stuff.

Culturally we saw Chip McCabe and Daniel Burkett travel to Wellington to take part in the O'Shea Shield competition. Both boys played parts in the Drama team. Taranaki speech and drama, Chip and Daniel were joined by Jeremy Clark, Finn O'Keefe and James Neil to represent the College in the senior drama section.

We also had a band in the Rock Quest. Fake Reality containing Phillip Donaldson, Ben Ingram, Jeremy Clark, Ryan Christiansen and Jacob Coulton gained a credible 3<sup>rd</sup> place.

As the year comes to an end the boys are becoming more excited, but we must reflect back on the year and give a huge thanks to our Deans Mrs Simpson and Mr Rata who have worked tirelessly through the year to make our year more enjoyable. Thanks a lot, see you next year.

Year 11G

## YEAR 12 REPORT

As the prospect of Year 13 beckons we reflect on a year that has brought us more than we expected. As the gates opened and Year 12 dawned we were soon brought back to the reality of school.

Once again we were well represented as a year group on the sports field. Representation in the College First fifteen, first elevens and Senior A.

The Year 12 success did not stop on the sporting field. Culturally a strong Year 12 presence was apparent in the O' Shea, Taranaki Speech and Drama Festival and the Speech Finals. Musical achievement again ran through the year 12 group.

Also many young Year 12 men gained valuable leadership experience for the up and coming Year 13 year as four boys not only represented the College but also the province and the country at the Global Youth Leadership Conference held in the United States.

The pure talent really showed through in the

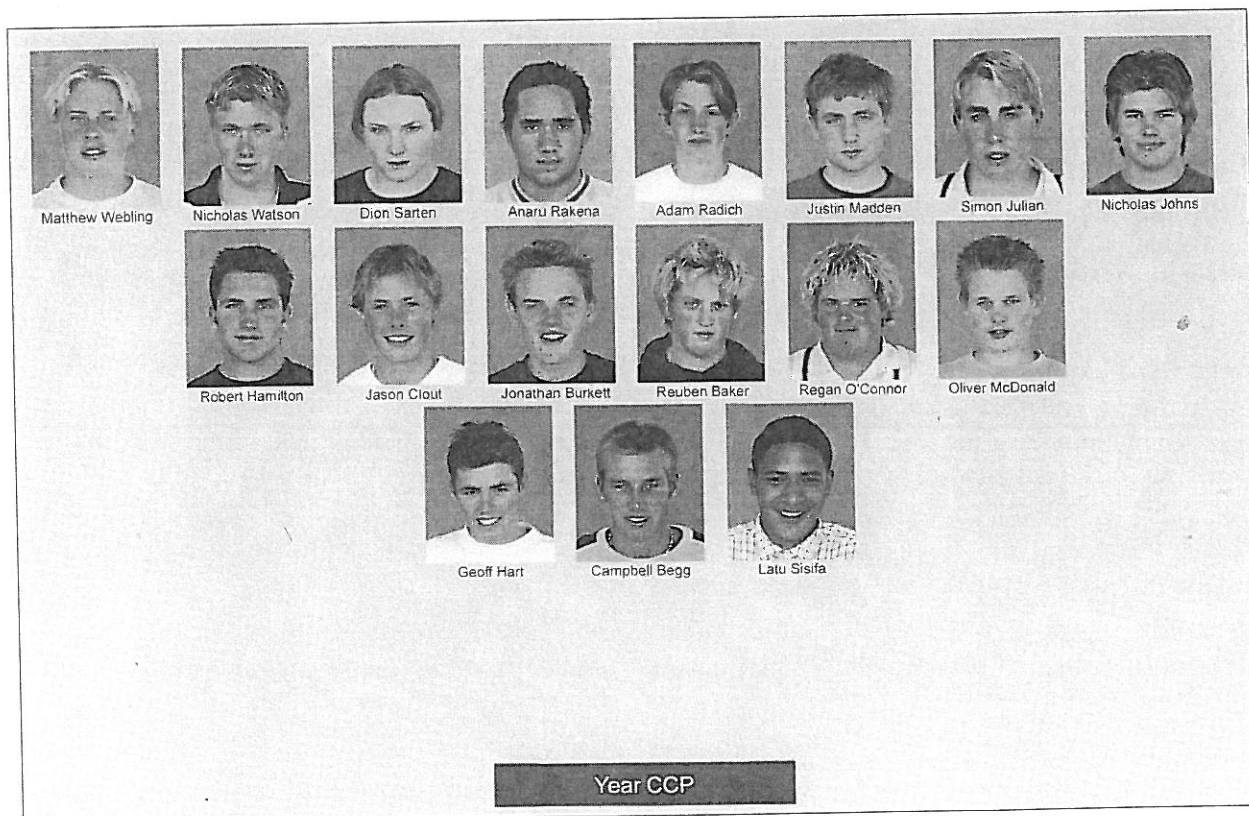

social arena with the boys not only dazzling the minds of their young female partners but also the staff present at the Francis Douglas College Ball. This was the first College ball that the boys had experienced and the night's endeavours proved to be one that the lads will never forget.

A mention has to go to the CPP contingent who kept the Year 12 spirit and pride flowing into their selected areas. On top of this, those who have spent their last days at the College this year will be sadly missed and remembered for their many contributions and memories that they will leave behind..

For the Year 12 group of 2002, thanks for the good times, the laughs and the tenacity shown in striving for desired results. As we move into our senior year in 2003 may we continue to have the same amount of camaraderie and support for each other.

YEAR 13 REPORT

This was the bubble; the biggest Year 13 group in the College history. With this honour came a new Common Room with luxuries others could only dream of. On behalf of the students I thank Br Bill for this.

In January there was a drive to have all the Year 13 students enrolled in five Bursary subjects- not completely successful but almost there. I still believe that it should be the goal of all Year 13 students, as we are not a Sports Academy or a job training centre. Most of you can proudly say that you gave schooling your best shot. Hopefully you are prepared for a life time of learning. Your commitment makes a Dean's job so easy.

There have been outstanding contributions to the College by a range of individuals in this group. I would like to thank Jonathon and Ben for being great ambassadors for the College; Kieran for always being the rock and Jordy for his enthusiasm, These young men have led our College well. More has been asked of all our leaders and particularly the House Captains- you have risen to the challenge on most occasions. Some never did manage the 8.15 gate duty! Special mention of Carl for his inspirational leadership of the 1st XV; Blaise and Yeshan for their dramatic endeavours; Pim for his willingness to teach me about soccer [Yeah right!]. A huge

thank-you to Martyn and Nitaan for always reminding me that I shouldn't assume students know what I'm talking about. Thank you to Philip and James for giving me something to do in my spare time! The quiet ones who really hold us all together- I thank you Miles and Darren. You all have talents which you have given to the College.

In Cultural endeavours you have set an example to those younger students, in the classroom you have given us your best and of course as always you gave your all on the sports' field. You have led by example and left a lasting impression on us all. There were many occasions on which one felt proud to be your Dean. First at the Investiture Mass; at the College Ball; the Colours Ceremony but also in many small moments. The effort you all made to wear the uniform correctly; the smiles from those who just couldn't manage it. Matthew with his "butt sag", Nitaan with a uniform all his own and Sean with the shirt tail.

You have been the biggest, the brightest, the best. You will be a hard act to follow. I wish each and every one of you well in all your future endeavours. Take with you all the values and inspiration of Francis Douglas Memorial College.
