A Catholic College in the tradition of the De La Salle Brothers

GYM AUDITORIUM PROJECT UPDATE

 18TH JULY - 1ST AUGUST 2025

We're pleased to share that construction on the Gym/Auditorium continues to progress well, thanks to a great run of weather last week. Clelands and their subcontractors have made strong headway across multiple areas.

The roof liner and insulation are now complete on one side of the main roof, with good progress being made on the bottom deck of the remaining side - top deck materials are also now all on-site.

In the changing room area, trusses and diaphragm plywood installation are complete. External framing is advancing in several locations, and ground preparation around the Level 1 area has been finalised.

Tim Stuck - Principal
