GYM AUDITORIUM PROJECT UPDATE

11TH APRIL - 6TH MAY 2025

The FDMC Gymnasium/Auditorium project is making significant strides with the Level 1 structural steel near completion. Next week, work will begin on the Level 1 plywood diaphragm roof, while wall framing is already underway.

The ground floor slab reinforcing will start on Monday, May 5th, with the pour scheduled for May 12th. Clelands are moving the project into its next phase, with the laminated veneer lumber structure on the ground floor and the continuation of the structural steel work.

As we near the completion of the Brick fundraiser, please remember that final donations must be in by May 31st. Thank you for your continued support as we bring this exciting development to life.

Tim Stuck - Principal
